

Agenda item:

Decision maker: Cabinet - 4 March 2013
Council - 19 March 2013

Subject: Local Transport Plan 3 Implementation Plan 2013/14

Report by: Head of Transport and Environment

Wards affected: All

Key decision (over £250k): No

1. Purpose of report

The purpose of this report is to seek approval from the Cabinet to present the draft Local Transport Plan 3 (LTP 3) Implementation Plan 2013/14 to Full Council for approval.

2. Recommendations

It is recommended that the Cabinet;

- 1) Approve the attached Implementation Plan for onward consideration by Full Council.**
- 2) Delegates authority to the Head of Transport and Environment in consultation with the Cabinet Member for Traffic and Transportation, the Strategic Director for Regeneration and the Section 151 Officer to agree any minor amendments to the Implementation Plan that may be required to take account of future funding changes and policy announcements.**

3. Background

The Local Transport Plan 3 (LTP 3) Joint South Hampshire Strategy 2011-2031 was approved by Full Council on 25 January 2011 along with the Implementation plan 2011-12, which came into effect on the 1 April 2011.

The adoption of a Local Transport Plan (LTP) is a statutory requirement under the Transport Act 2000, as amended by the Local Transport Act 2008. The amendments to the 2000 Act awarded Local Authorities greater flexibility in the development of their Local Transport Plans, including the opportunity for neighbouring authorities to jointly develop their LTP 3, but stipulated that the LTP must contain two key elements. A Strategy (containing a set of policies)

and an Implementation Plan (containing the proposals for delivery of the policies outlined within the strategy).

Implementation Plan

Along with a long term strategy, the LTP 3 is required to include an Implementation Plan which sets out the proposals for the delivery of the policies outlined within the Strategy.

A one year Implementation Plan Delivery Programme has been developed for 2013/14, demonstrating how PCC will deliver against the outcomes of the LTP 3 Strategy.

Given the level of financial uncertainty and the fact that the LTP Capital Settlement is no longer ring-fenced, it is not considered to be possible to provide a confirmed 3 year Implementation Plan.

A scheme selection prioritisation process has been developed through which schemes are assessed against their contribution to locally agreed priorities, before being assessed for their deliverability. Professional judgement is used to ensure an appropriate package of schemes is established, ensuring contribution to each of the policy areas, and a balanced geographical spread.

Next Steps

With approval from Cabinet, the delivery programme, if approved by Full Council in March 2013 will form the basis of the Portsmouth LTP 3 Implementation Plan.

Officers will then compile and complete the Portsmouth City Council Local Transport Plan 3 Implementation Plan in accordance with statutory obligations by 1st April 2013, consulting with residents on each scheme as appropriate to ensure that full stakeholder engagement is achieved for the programme.

4. Reasons for recommendations

The adoption of the LTP 3 by April 2013 is a statutory requirement.

5. Equality impact assessment (EIA)

A preliminary EIA has been undertaken.

6. Head of legal services' comments

The Council is under a statutory duty to develop policies for the promotion and encouragement of safe, integrated, efficient and economic transport to, from and

within its area. These policies must be set out in the Local Transport Plan together with the proposals for the implementations of these policies.

The Council is required to keep its Local Transport Plan under review and alter it if it considers it appropriate to do so. The Council is required to enter into appropriate consultation as part of this process.

The City Solicitor is satisfied that the Council has power to make the recommendations.

7. Head of Finance's comments

The Capital Programme 2012/13 to 2017/18 sets out the corporate resources to be allocated to the Local Transport Plan for 2013/14 (LTP3). For the forthcoming financial year a sum of £600,000 is allocated to the LTP3.

Appendix A sets out the indicative costs of the schemes. These costs will be revised as full project initiation documents (PIDs) are created for each scheme. This may mean that costs need to be increased or reduced. Potentially some schemes may have to be deleted or amended and likewise there is the possibility for new schemes to be added if costs are reduced. The recommendation as set out in 2.2 allows decisions to amend, delete or add schemes to be made without recourse to Full Council whilst ensuring that the Head of Transport and Environment, the Cabinet Member for Traffic and Transportation, the Strategic Director for Regeneration and the S151 Officer are satisfied that any changes made meet the requirements of the Local Transport Plan aspirations and remain within the total budget .

All scheme costs estimates are calculated on a whole life costing basis to ensure that sufficient monies are set aside to meet all internal and external costs in the first instance. The costs also allow for the ongoing maintenance costs of the new schemes.
