# **NOTICE OF MEETING**

#### CABINET MEMBER FOR RESOURCES

THURSDAY, 13 OCTOBER 2016 AT 10.00 AM

#### THE EXECUTIVE MEETING ROOM - THIRD FLOOR, THE GUILDHALL

Telephone enquiries to Vicki Plytas 023 9283 4058 Email: Vicki.plytas@portsmouthcc.gov.uk

If any member of the public wishing to attend the meeting has access requirements, please notify the contact named above.

#### **CABINET MEMBER FOR RESOURCES**

Councillor Lee Mason (Conservative)

#### **Group Spokespersons**

Councillor Colin Galloway, UK Independence Party Councillor Hugh Mason, Liberal Democrat Councillor Yahiya Chowdhury, Labour

(NB This Agenda should be retained for future reference with the minutes of this meeting.)

Please note that the agenda, minutes and non-exempt reports are available to view online on the Portsmouth City Council website: www.portsmouth.gov.uk

Deputations by members of the public may be made on any item where a decision is going to be taken. The request should be made in writing to the contact officer (above) by 12 noon of the working day before the meeting, and must include the purpose of the deputation (for example, for or against the recommendations). Email requests are accepted.

#### <u>A G E N D A</u>

- 1 Apologies for Absence
- 2 Declaration of Members' Interests
- **3 CIPFA Value for Money Comparisons.** (Pages 1 18)

The purpose of this report is to inform the Cabinet Member for Resources of Portsmouth's relative position on a number of indicators according to CIPFA's VFM (Value for Money) toolkit; and to seek consideration of whether any further information is required.

#### **RECOMMENDED** that the Cabinet Member for Resources:

- a) Notes the information in the report and Appendix 1;
- b) Considers if any further information is required.
- 4 Monitoring of the First Quarter 2016/17 Revenue Cash Limits and Capital Programme (Pages 19 26)

(INFORMATION REPORT ONLY - FOR NOTING)

The purpose of the report is to inform the Cabinet Member and Opposition Spokespersons of

- (1) The forecast revenue expenditure for the year compared with the cash limited budget
- (2) The forecast capital expenditure against the revised capital programme for the Resources portfolio

**RECOMMENDED** that the content of this report be noted.

5 Budget Outturn 2015/16 - Revenue Cash Limits and Capital Programme (Pages 27 - 40)

(INFORMATION REPORT ONLY - FOR NOTING)

The purpose of the report is to inform the Cabinet Member and Opposition Spokespersons of:

- (1) The 2015/16 outturn revenue expenditure for the year compared with the cash limited budget.
- (2) The 2015/16 outturn capital expenditure against the revised capital programme.

#### RECOMMENDED that the content of the report be noted.

Members of the public are now permitted to use both audio visual recording devices and social media during this meeting, on the understanding that it neither disrupts the meeting or records those stating explicitly that they do not wish to be recorded. Guidance on the use of devices at meetings open to the public is available on the Council's website and posters on the wall of the meeting's venue.

# Agenda Item 3

Title of meeting: Cabinet Member for Resources

**Date of meeting:** 13<sup>th</sup> October 2016

**Subject**: CIPFA Value for Money Comparisons

**Report by:** Jon Bell, Director or HR, Legal and Performance

Wards affected: N/A

**Key decision:** No

Full Council decision: No

#### 1. Purpose of report

1.1 The purpose of this report is to inform the Cabinet Member for Resources of Portsmouth's relative position on a number of indicators according to CIPFA's VFM toolkit; and to seek consideration of whether any further information is required.

#### 2. Recommendations

- 2.1 It is recommended that the Cabinet Member for Resources:
  - a) Notes the information in the report and Appendix 1;
  - b) Considers if any further information is required.

#### 3. Reasons for recommendations

- 3.1 On an annual basis, CIPFA (the public sector finance body) issue a "toolkit" which pulls together statutory (and some voluntary) returns on organisational costs and performance, in order to provide a high-level view on these dimensions relative to other authorities, and relative to each other. This information can be filtered in a number of ways (by performance indicator, by service, and by comparator group). This is then used to derive a judgement on the relative VFM being provided in a given service area.
- 3.2 There are significant limitations and caveats on the data and its use. There is an issue about the robustness of what is included. It is acknowledged that financial returns used in the toolkit (RA and RO forms), can include some inaccuracies. The "service" groupings identified by CIPFA are areas of activity that do not necessary correlate to that PCC groups these areas into service units. There are also omissions, most notably of specific reference to a number of back-office functions (HR, Legal, Finance, IT, policy services, audit, customer service, democratic services, communications for example). This is because

"corporate overheads" are apportioned across the costs of service provision – and overheads within services are too (so service based support staff aren't identified). This is the same for all authorities, but we also know that apportionment policies vary –so there is a built in element of comparing apples and pears. There are also some choices of indicators of performance that might cause us concern. Finally, there are some concerns about timeliness, and that comparisons are being made against budgets that have since been significantly reduced.

3.3 Nonetheless, in terms of providing an overview of areas of cost in the organisation, and the sort of performance resulting, the CIPFA toolkit can still provide a starting point for discussion of where we might want to look in more detail at costs. The findings are not absolute, and further investigation must of course include a rigorous testing of the underlying data and assumptions.

#### 4. Conclusions from the information

- 4.1 The attached Appendix A sets out the headlines findings from the toolkit. A high level analysis of Portsmouth's relative positions using the new data has been carried out. This compares cost and performance scores (where available) to that of a group of statistical neighbours, and provides a relative percentile ranking for the two dimensions (where a high percentile is "good" for performance, and "bad" for cost). This initial analysis does suggest that there are areas where we have comparatively high costs compared with others; and some areas where our costs are comparatively low.
- 4.2 The appendix also shows what the projected cost position is for the following year of the toolkit (actually the last year of operation) based on information about 15/16 budgets supplied in the RA forms.
- 4.3 The Cabinet Member for Resources is asked to consider this information, and whether any further information or analysis is required, including from any other sources.
- 4.4 The Cabinet Member is also asked to consider whether updates should be presented when further toolkit releases are issued.

#### 5. Equality impact assessment (EIA)

Any equality matters arising through performance or value for money consideration will be considered as a discrete process, and EIAs will be completed for these areas of work as necessary.

#### 6. Legal Implications

6.1 There are no immediate legal implications arising from this report.

| 7 | Director | of Finance   | e Comments |
|---|----------|--------------|------------|
|   |          | OI I IIIAIIC |            |

| 7.1 | I here are no financial implications to bring to member's attention at this stage. |
|-----|--|
|     | However, it should be noted that there could be further financial implications     |
|     | following further exploration of any of the issues raised in this report,          |
|     | and related future reports could result in financial implications. These will be   |
|     | flagged to members at the appropriate time.  |

# Agenda Item 4

Title of meeting: Resources Portfolio

**Subject**: Monitoring of the First Quarter 2016/17 Revenue Cash

Limits and Capital Programme

**Date of meeting:** 13<sup>th</sup> October 2016

**Report by:** Director of Finance and Information services

Wards affected: ALL

#### 1. Introduction

1.1 This report compares the forecast revenue outturn 2016/17 with the cash limited budget for that year and the forecast capital expenditure with the approved capital programme and provides information to enable an understanding of the reason for variances. It also lists the action to be taken to mitigate the effect of forecast overspends.

#### 2. Purpose of report

- 2.1 To inform the Cabinet Member and Opposition Spokespersons of:
  - The forecast revenue expenditure for the year compared with the cash limited budget.
  - The forecast capital expenditure against the revised capital programme for the Resources portfolio.

#### 3. Recommendations

3.1 The content of this report be noted.

#### 4. Background

#### 4.1 Cash Limit 2016/17

| Net Requirement     | <b>£000's</b> 22,453 |
|---------------------|----------------------|
| Less;               |                      |
| Capital Charges     | 2,786                |
| Net Insurance Costs | 118                  |

|-----|---|----------------------|--------|
| 4.1 | Forecast Outturn 20156/17                                       |                      | % of   |
|     |   | £000's               | Budget |
|     | Controllable Cash Limit 2016/17                                 | 18,222               |        |
|     | Total Forecast Controllable Expenditure 2016/17                 | 18,088               | 99.26% |
|     | Variance - (Under)/Overspend                                    | (134)                | 0.74%  |

#### 4.2 <u>Appendices</u>

- 4.3 Analysis of this portfolio's variations from the revenue cash limit is attached at Appendix A.
- 4.4 Analysis of the portfolio's capital expenditure for 2016/17 is attached at Appendix B.

## 5. Revenue Expenditure

(Please read in conjunction with the attached Appendix A)

- 5.1 The provisional forecast outturn for the portfolio compared to the cash limit indicates a net underspend of £133,800.
- 5.2 Within the portfolio there are services whose budgets are deemed 'windfall' budgets by the City Council. These services are Spinnaker Tower, Rent Allowances, Rent Rebates, Land Charges and District Audit Fees (within Corporate Management). These 'windfall' budgets represent income and expenditure which is demand led and largely out of the control of budget managers. Consequently any under or overspending is absorbed corporately. There are no windfall variances currently forecast so the overall net underspend remains at £133,800 i.e. 0.73%

#### 5.3 <u>Item 1 HR Miscellaneous Expenses - underspend £35,300</u>

A saving of £15,000 is anticipated due to lower utilisation of the Trade Union Secondment budget. A further underspending of £12,500 is currently forecast against the Feasibility Studies as there are no known commitments at this stage.

#### 5.4 <u>Item 4 Customer & Community Service - underspend £31,700</u>

The City Helpdesk is to undergo a staffing restructure to meet future year's saving requirements. The timetable for implementation should allow a saving to accrue in the current financial year.

#### 5.5 Item 6 Financial Services - underspend £51,300

This underspend arises from an increased demand from the Housing service for financial services and recovery of costs from Public Health, which are in turn funded via central government grant arrangements.

#### 6. Summary

- 6.1 The overall forecast outturn position on the portfolio is a net underspend of £133,800 representing 0.73% of the total cash limited budget. Within this net position there are various other less significant under and overspendings as shown in Appendix A.
- 6.2 Since 2013/14 portfolio underspends have been retained in a portfolio specific earmarked reserve. This reserve is to be used initially to cover future year end overspendings, budget pressures, contingent items and spend to save schemes. Once these instances have been satisfied, the reserve may be used for other developments or initiatives. The portfolio holder is responsible for approving any releases from the earmarked reserve in consultation with the Director of Finance and Information Services & S151 Officer.
- 6.3 The following application has been approved from the portfolio reserve in the current year;

£
Landlord's Maintenance- refurbishment works to
Carnegie Library first floor to enable use of office space 113,000

6.4 To date the uncommitted balance on the reserve is £487,050

#### 7. Capital Programme

(Please read in conjunction with the attached Appendix B)

7.1 The capital programme has been updated to reflect the impact of new schemes, further approved amendments, re-phasing of expenditure and the removal of completed schemes.

# 7.2 <u>Forecast Outturn 2016/17</u> £000's £000's

# Agenda Item 5

Title of meeting: Resources Portfolio

Subject: Budget Outturn 2015/16 - Revenue Cash Limits and

Capital Programme

**Date of meeting:** 13<sup>th</sup> October 2016

**Report by:** Director of Finance and Information services

Wards affected: ALL

#### 1. Introduction

1.1 This report compares the Resources Portfolio 2015/16 revenue and capital expenditure outturns with the controllable cash limit and approved capital programme. It provides information to enable an understanding of the reasons for variances.

#### 2. Purpose of report

- 2.1 To inform the Cabinet Member and Opposition Spokespersons of:
  - The 2015/16 outturn revenue expenditure for the year compared with the cash limited budget.
  - The 2015/16 outturn capital expenditure against the revised capital programme.

#### 3. Recommendations

3.1 The content of this report be noted.

#### 4. Background

4.1 Cash Limit Expenditure 2015/16

**£000's**Net Requirement 24,075

Less;

Capital Charges 2,786

| Net Insurance Costs             | 105    |
|---------------------------------|--------|
| FRS17                           | 859    |
| Employee Benefit Accruals       | 468    |
| Controllable Cash Limit 2015/16 | 19,857 |

#### 4.1 Outturn 2015/16

|                                  | £000's | % of<br>Budget |
|----------------------------------|--------|----------------|
| Controllable Cash Limit 2015/16  | 19,857 |                |
| Total Actual Expenditure 2015/16 | 19,136 | 96.37%         |
| Variance - (Under)/Overspend     | (721)  | 3.63%          |

#### 4.2 Appendices

- 4.3 Analysis of this portfolio's variations from the revenue cash limit is attached at Appendix A.
- 4.4 Analysis of the portfolio's capital expenditure for 2015/16 is attached at Appendix B.

#### 5. Revenue Expenditure

(Please read in conjunction with the attached Appendix A)

- 5.1 The final outturn for the portfolio compared to the cash limit is a net underspend of £720,900.
- Within the portfolio there are services whose budgets are deemed 'windfall' budgets by the City Council. These services are Spinnaker Tower, Rent Allowances, Rent Rebates, Land Charges and District Audit Fees (within Corporate Management). These 'windfall' budgets represent income and expenditure which is demand led and largely out of the control of budget managers. Consequently any under or overspending is absorbed corporately. Excluding 'windfall' variances gives a net underspend on the portfolio of £304,800 i.e. 1.54%.
- 5.3 Much of the variance across the portfolio services arose form vacant posts being held, where operationally possible, in anticipation of future efficiency requirements. Other significant variances are explained below.

# 5.4 <u>Item 8 AMS Design and Maintenance - overspend £339,700</u>

During 2015/16 fee income was below target due to specification changes in a number of key projects, delaying their implementation. Further costs were

incurred due to non-fee earning work taking a larger share of staffing resource than anticipated in the base budget.

Overspending has been offset by underspending within Landlords Maintenance (item 10).

During 2016/17 delayed fee earning projects are commencing and will allow a recovery of lost income over the medium term.

#### 5.5 Item 10 Landlords Repairs & Maintenance - underspend £411,900

Maintenance needs during 2015/16 were lower than anticipated due to mild winter conditions. This underspend was further compounded by downward revisions in scheme costs relating to the 2014/15 financial year and the introduction of a higher creditors threshold at year end.

This underspend mitigates overspending within Design & Maintenance (item 8).

#### 5.6 Item 11 Spinnaker Tower - underspend £97,000

Earlier commencement of the five year tower naming rights deal, between Emirates and the Council has resulted in additional income being received in the 2015/16 financial year. This represents a variation to the original phasing of the budget and does not result in any overall additional income over the five year period.

#### 5.7 Item 14 & 15 Housing Benefit - underspend £276,500

The Council paid approximately £110m in housing benefit to Portsmouth residents during 2015/16. These costs are recovered from central government through a subsidy mechanism which covers both the payment and administration costs of the benefit.

Due to subtle variations in factors associated with administration of the system, such as recovery of overpayments or movements in the age of outstanding debt, the council can only recover the full cost over the medium term. This often results in financially significant variances such as in 2015/16.

#### 5.8 <u>Item 21 Corporate Management - underspend £126,300</u>

In addition to vacancies within this budget, District Audit fees were £ 39,300 below budget due to a lower fee structure applying to the Council and reduced audit requirements within certification activities.

#### 5.9 Item 22 Coroners – underspend £24,100

Approximately 3,200 deaths per year are reported to the Portsmouth and South East Hampshire Coroner. A levy is due from Hampshire County Council dependant on the number of deaths occurring outside of the Portsmouth area. During 2015/16 there was a slight increase in the proportion of Hampshire

reported deaths, resulting in a higher levy being charged to Hampshire County Council than anticipated in the services original budget.

## 6. Summary

- 6.1 The overall outturn position on the portfolio is a net underspend of £720,900 representing 3.6% of the total cash limited budget. Within this net position there are various other less significant under and overspendings as shown in Appendix A.
- The 2015/16 outturn net controllable underspend of £304,800 will be added to the portfolio specific earmarked reserve. This reserve is to be used initially to cover future year end overspendings, budget pressures, contingent items and spend to save schemes. Once these instances have been satisfied, the reserve may be used for other developments or initiatives. The portfolio holder is responsible for approving any releases from the earmarked reserve in consultation with the Director of Finance and Information Services & S151 Officer.
- 6.3 At the end of 2015/16 the uncommitted balance on the reserve is £600,050

#### 7. Capital Programme

(Please read in conjunction with the attached Appendix B)

7.1 The capital programme has been updated to reflect the impact of new schemes, further approved amendments, re-phasing of expenditure and the removal of completed schemes.

#### 7.2 **Outturn 2015/16**

| Total Revised Budget 2015/16                     | <b>£000's</b> 5,934 |
|--|---------------------|
| Actual Net Expenditure 1 Apr 2015 to 31 Mar 2016 | 3,700               |
| Variance - (Under) / Overspend                   | (2,234)             |

- 7.3 The outturn for the portfolio capital programme compared to the approved budget is a net underspend of £2,233,969. This underspend is mostly attributable to slippage in spending from the 2015/16 year into future years.
- 7.4 Higher value schemes where the estimated phasing of expenditure has slipped from 2015/16 into 2016/17 are as follows:

| Landlords Maintenance Capitalised Repairs   | 123,800   |
|---|-----------|
| Landlords Maintenance Capital Contingency   | 411,000   |
| Refurbishment of ground floor accommodation | 150,000   |
| IS Road Map                                 | 325,100   |
| Working Anywhere                            | 94,400    |
| PSN CoCo Compliance                         | 92,600    |
| Guildhall Capital Works - Operational areas | 80,000    |
| Server and Database Upgrades                | 200,000   |
| Web Phase 2 / Channel Shift                 | 116,900   |
| Utilities Management                        | 638,500   |
| Total                                       | 2,232,300 |

#### 7.5 Item 3 Landlords Maintenance - slippage £123,800

Works to the electrical distribution system were delayed to avoid an 'electrical shutdown' impacting on the city's CCTV coverage during a crucial period for local security.

Further slippage occurred due to a review of emergency lighting. Following a pilot project smaller emergency lighting schemes will now form part of an overall upgrade scheduled to commence in the new financial year.

Retendering for works on Cosham Community Centre heating also created significant slippage into 2016/17. The exercise achieved savings but delayed completion into the new financial year.

#### 7.6 Item 4 Landlords Maintenance Capital Contingency - slippage £411,000

This funding is only for urgent repairs critical to maintaining operational buildings. During 2015/16 all essential works were able to be incorporated into the normal Landlords Maintenance budget and therefore this allocation was not called upon.

#### 7.7 Item 9 Refurbishment of ground floor accommodation- slippage £150,000

This scheme covers the remodelling of accommodation space to support the existing data centre facilities.

Delay in finalising the design and subsequent tendering of works resulted in slippage of the overall spending profile.

#### 7.8 <u>Item 11 IS Road Map - slippage £325,100</u>

This rolling programme of IT infrastructure renewal includes replacement of storage area network, software upgrades and improvements to back up systems. Work initially planned for the year has been deferred into 2016/17 due to other unforeseen high priority work being undertaken.

# 7.9 <u>Item 16 Working Anywhere - slippage £94,400</u>

This project equips the council with an ICT infrastructure to support flexible working. Significant progress on the scheme has been made and total expenditure incurred is £875k.

The final phases of this scheme have slipped into 2016/17 since some elements such as, 'apps' working over the virtual private network (VPN) and the upgrade of telephony systems need to be phased with new security infrastructure.

#### 7.10 Item 19 PSN CoCo Compliance - slippage £92,600

The work undertaken to meet the Public Sector Network (PSN) requirements for authorities connecting to secure government systems was less than anticipated during the year.

#### 7.11 Item 22 Guildhall Capital Works operational areas - slippage £80,000

Currently works to improve the operational areas occupied by Portsmouth City Council are on hold. The Guildhall Cultural Trust is undertaking a 'renaissance' project which could impact on these areas. Consequently works have been delayed pending the projects recommendations.

# 7.12 <u>Item 23 Server and Database Upgrades - slippage £200,000</u>

A key criterion for Public Services Networks (PSN) security accreditation is that software is supportable. Without PSN compliance the Council would be unable to share information with central government.

The capital scheme was funded by a contribution to capital from the IS revenue budget in 2014/15 to cover the cost of new servers and improve the existing resource used to support the upgrade of systems / databases which were at risk of de-support by suppliers due to their age. This would ensure that systems remain viable and we retain our Public Services Network (PSN) accreditation essential for information sharing with our key partners. Final requirements to meet this accreditation resulted in less volume of change than originally anticipated.

## 7.13 <u>Item 25 Web Phase 2 / Channel Shift - Slippage £116,900</u>

Delay in initial form design stage had knock on effect on the progression of the project which is now due for completion in 2016.

#### 7.14 Item 26 Utilities Management 2015/16 - Slippage £638,500

This scheme comprises the fitting of solar panels and LED lighting to select Council assets including the Civic Offices.

Installation of LED lighting within the Civic Offices represents approximately £560,000 of the overall budget. Full implementation of the project was

dependant on a successful lighting trial within a small section of the building. The trial was successful and results were used in a subsequent supplier review which identified opportunities for savings. Due to a more complex trial and supplier review period significant slippage has occurred in the projected completion date, which has been revised to November 2016.

7.15 A number of schemes completed during the year with an overall underspend of £13,600. These savings will either be returned to the corporate centre or the specific reserve that they originated from.

#### **REASONS FOR VARIATIONS AGAINST TOTAL BUDGET 2015/16**

| Item | Reason for Variation   | Variance  | Remedial Action  | Value of           |
|------|--|-----------|--|--------------------|
| No.  |  | £         |  | Remedial<br>Action |
| 2    | The service underspend arises from posts being held vacant to prepare for savings requirements in future years   | (36,900)  |  |                    |
| 4    | Underspend across a number of Customer & Community Service areas due to the holding of vacancies in order to prepare for saving requirements in future years   | (29,100)  |  |                    |
| 6    | The service is holding vacancies in order to prepare for saving requirements in future years   | (56,800)  |  |                    |
| 7    | The service is projecting an underspend due to posts being held vacant in preparation for future years savings   | (20,300)  |  |                    |
| 8    | The projected overspend is primarily due to fee income earned by the Service being below target. This is the result of a number of fee earning capital schemes being delayed or altered due to changing client need, as well as a significant proportion of the teams time being focussed toward delivering non fee earning revenue work, which aims to generate significant ongoing savings across the Council as a whole   | 339,700   | Services continue to seek further fee earning work. In addition, those delayed fee earning projects will now commence in next year, the result being an increase in fee income in that year. In the current year, this overspend will be met by the projected underspend within the Landlords Maintenance budget, Line 10 below. |                    |
| 10   | Landlords Maintenance is lower than originally budgeted due to mild winter conditions, downward revisions to 2014/15 costs and higher creditor thresholds. The underspend will be used to offset the expected overspend within the other Design/Maintenance budgets (Line 8 above). However, this is dependent on the weather over the winter months which can have a large impact on this budget, e.g. reactive repair work | (411,900) |  |                    |
| 11   | The tower naming rights deal earlier commencement resulted in additional income being recevied in the 2015/16 financial year.  | (97,000)  |  |                    |
|      | These variances represent the difference between housing benefit paid out to private and council house tenants and the government subsidy received for these purposes. The total value of benefits paid exceeds £110m and minor fluctuations in the factors affecting Housing Benefit can result in material variances.  | (276,500) |  |                    |
| 18   | An underspend arising from vacancies held in order to prepare for future savings has been offset by redundancy costs funded by the service rather than calling upon the reserve.   | 62,700    |  |                    |
| 21   | The Strategy unit is underspending due to posts being held vacant in preparation for future years savings and there is a reduction in the external audit fee structure.  | (126,300) |  |                    |
| 22   | Underspend due to a contribution from Hampshire County Council for the refurbishment costs in relation to the Coroners relocation to the Civic Offices   | (24,100)  |  |                    |
|      | Variance less than £5,000  | (44,400)  |  |                    |
|      | TOTAL PROJECTED VARIANCE   | (720,900) | TOTAL VALUE OF REMEDIAL ACTION   | 0                  |

Note Remedial Action resulting in savings is shown in brackets
