4 Smarter Cities Review

The panel will continue the review of Smarter and Sustainable Cities by considering evidence from:

- (i) Professor Steffen Lehmann, University of Portsmouth, Professor of Sustainable Architecture and Director, Cluster for Sustainable Cities. Professor Lehmann's presentation entitled '**Regenerating Cities**' will look at how to unleash the hidden potential of the Island City of Portsmouth, including increased collaboration between industry, local government and the University of Portsmouth. Urban development has never been more important than today, nor has the competition between cities been more intense. What are the visionary but grounded strategies for the future of the City of Portsmouth and what could be done to transform and upgrade its public space network to meet the challenges of the 21st century?
