Q6 - Using the assessments in questions 3, 4 and 5 should a full assessment be carried out on this policy, service, function or strategy?

yes

No

Q7 - How have you come to this decision?

We have consulted widely with groups in the city to pull together the overarching strategy (listed within the document). This has specifically included a range of protected groups, and their comments are reflected in the overall document. We have also drawn on national research and datasets.

At the high-level strategy development stage, there are no identified negative impacts for the protected groups, and a number of positive direct and indirect impacts. It is expected that as individual projects within the strategy progress, these will be subject to individual equalities impacts assessments to ensure that there are no negative impacts, and indeed that positive impacts are maximised.
