Q1 - What is the aim of your policy, service, function, project or strategy?

The optimum delivery model is required to deliver a more responsive, efficient, effective and flexible service that meets the needs of residents and visitors across the cities greenspaces, including the seafront. The chosen model will have the responsibility to deliver quality parks and open spaces for residents to enjoy and help promote the city as a good place to hold events and for people to visit.

No

Q7 - How have you come to this decision?

If the service continues to be delivered by external service providers, there is no effective change to the delivery of grounds maintenance service in the city.

If the decision is made to bring the service in-house, it is likely that the Transfer of Undertakings (Protection of Employment) Regulations 2006 (TUPE) will apply. The city council must comply with the obligations under TUPE to inform and consult with any employees who may be affected by the transfer. It will inherit any liabilities arising from transferring employees' terms of employment with current service providers.
