

What Is Corporate Governance?

Corporate governance is a term used to describe the way that organisations direct and control what they do. For local authorities, it includes the systems, policies and processes, as well as the cultures and values that underpin a Council’s arrangements for effective: leadership, management, performance, delivery of positive customer outcomes, community engagement and stewardship of public money.

Why Do We Have a Local Code of Governance?

Portsmouth City Council has developed and adopted a Local Code of Governance, which sets out the organisation's governance arrangements and reflects the six core principles set out in the SOLACE/CIPFA Good Governance Framework (2007). The code demonstrates how the Council achieves good corporate governance and provides hyperlinks to supporting documents. Portsmouth City Council has established nine internal corporate governance controls, which have been incorporated into the Local Code of Governance. The controls have been chosen on the basis that they support the six core principles and are deemed critical to meeting the organisations business needs. All services are required to monitor and evidence compliance against them. The controls and local code will be reviewed on an annual basis and used to inform the production of the Annual Governance Statement, which is approved by the Governance and Audit and Standards Committee.
