- a) visionary;
- b) citizen-centric;
- c) digital;
- d) open and collaborative.

As we work towards becoming a smart city, we will use the following principles to guide our work:

The visionary city

A vision for our city's future which is clear, compelling and jointly owned by all key stakeholders

The citizen-centric city

We believe:

- In detailed and segmental understanding of our citizens' and businesses' needs
- In spaces and services built around citizens' needs
- that transformation is done with citizens and businesses, not to them

The digital city

We believe:

- In enabling the ubiquitous digitization of our city, with connectivity and integration between people, places, and things across the city
- in ensuring the inclusive digitization of our city, with no stakeholder group left behind

The open and collaborative city

We believe:

- In creating spaces and opportunities for new collaboration
- in opening up the city's data to drive innovation and create new value
- in building city systems that are flexible and adaptable
- in sharing and reuse of city assets and services

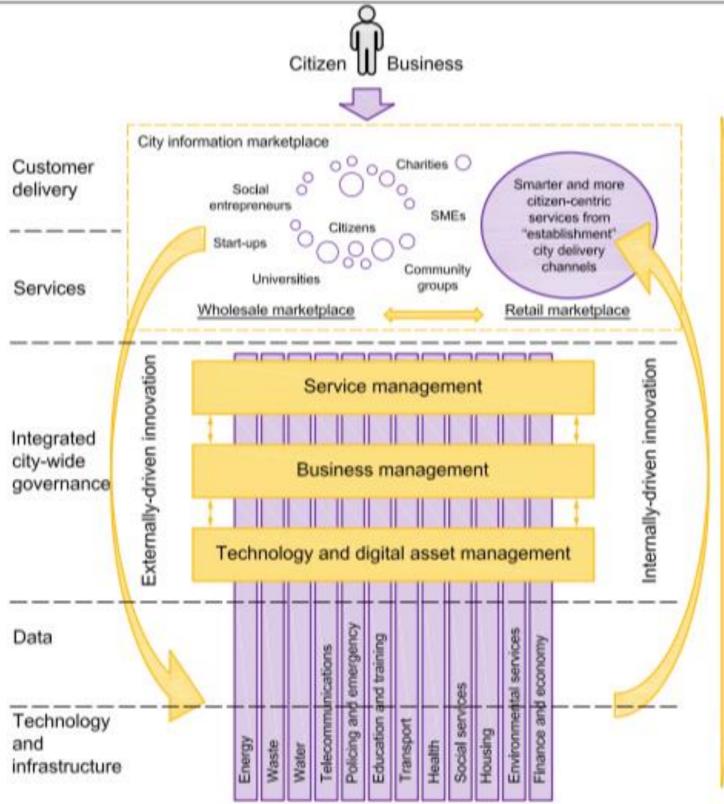

bsi.

KNOWNOW

The city's physical, spatial and ecological environment

bsi.

Impact:

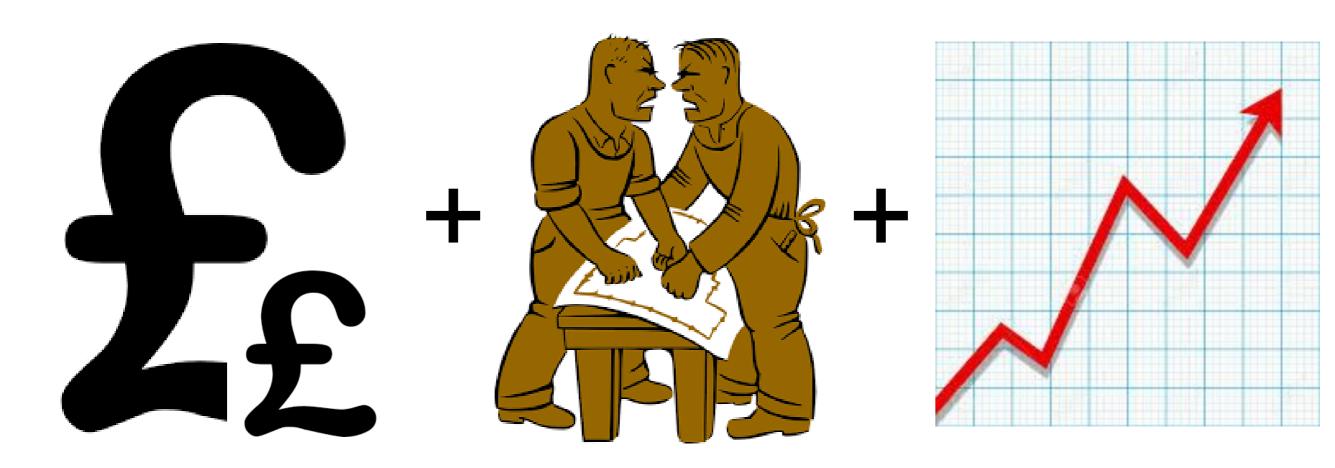

- City data unlocked from individual silos
- Logical separation of data, service and customer delivery layers
- Externally-driven innovation:
 - Enablement of new marketplace for city information and services
 - Citizens, SMEs and social entrepreneurs enabled to co-create public services and create new value with city data
- Internally-driven innovation:
 - Improved and integrated service delivery
 - Resource optimization
- Ability to drive city-wide change at speed

Regulatory Twist

Preparing for the General Data Protection 12 steps to take now Regulation (GDPR)

https://ico.org.uk/media/for-organisations/documents/1624219/preparing-for-the-gdpr-12-steps.pdf

Awareness

You should make sure that decision makers and key people in your organisation are aware that the law is changing to the GDPR. They need to appredate the impact this is likely to have.

Information you hold

You should document what personal data you hold, where it came from and who you share it with. You may need to organise an information audit.

Communicating privacy information

You should review your current privacy notices and put a plan in place for making any necessary changes in time for GDPR implementation.

Individuals' rights

You should check your procedures to ensure they cover all the rights individuals have, including how you would delete personal data or provide data electronically and in a commonly used format.

ico.org.uk

Subject access requests

You should update your procedures and plan how you will handle requests within the new timescales and provide any additional information.

Legal basis for processing personal data

You should look at the various types of data processing you carry out, identify your legal basis for carrying it out and document it.

You should review how you are seeking, obtaining and recording consent and whether you need to make any

You should start thinking now about putting systems in place to verify individuals' ages and to gather parental or guardian consent for the data processing

You should make sure you have the right procedures in place to detect, report and investigate a personal data breach.

Data Protection by Design and Data Protection Impact Assessments

You should familiarise yourself now with the guidance the ICO has produced on Privacy Impact Assessments and work out how and when to implement them in your organisation.

Data Protection Officers

You should designate a Data Protection Officer, if required, or someone to take responsibility for data protection compliance and assess where this role will sit within your organisation's structure and

If your organisation operates internationally, you should determine which data protection supervisory authority you come under.

Citizen First

1. INFORM

Tell your citizens on which topics

and projects you'd like to get their

input on.

https://meeco.me

2. CROWDSOURCE

Citizens can come up with own ideas or vote and comment on their preferred proposals.

3. TRACK

Track the engagement in the city or municipality and reward your engaged citizens.
