

PETITION

OBJECTING TO APPLICATION BY BECKETTS FOR A PREMISES LICENCE

We, the undersigned, strongly object to the application for a premises licence by Becketts at 10 and 11 Bellevue Terrace (including as now apparently amended) for several reasons including noise from music, noise from people chatting outside smoking or sitting at tables on the pavement into the early hours, possible anti-social behaviour due to the late opening hours, noise from cars leaving in the small hours. Elderly people, young children live in close proximity. Students live in the adjacent hall of residence. This is a residential area and a designated conservation area (Conservation Area No.6) and parking in this vicinity is very problematic. Creating a late night and early morning venue for drinking, live and recorded music would effectively create a nightclub and/or disco and it would be totally out of keeping with the area and cause all nearby residents to seriously suffer. It would also risk creating a new night time / early morning trouble spot and "watering hole".

We wish to stress that we understand the new owners of Becketts wish to run a wine bar and restaurant business and we have no objection to Becketts continuing to be run as a wine bar and restaurant as it has been for many years within its existing licensing hours, which we assume the new owners knew about when they bought the business.
