 - negative, positive or no impact on any of the equality groups

 - data / feedback
- prioritise if and when a full EIA should be completed

Title of policy, service, function, project or strategy (new or old) :

Special School Element 3 Top-up banding descriptors

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

Q1 - What is the aim of your policy, service, function, project or strategy?

The aim of this change in policy is to revise the banding descriptors and the associated financial values (Element 3 top-up funding) for children with special educational needs and disabilities (SEND) attending both maintained and academy special schools in the city.

It is proposed that the revised policy is implemented for pupils taking up a place in a special school in the city from September 2017 and for pupils who are reassessed as part of the statutory annual review process.

Q2 - Who is this policy, service, function, project or strategy going to benefit or have a detrimental effect on and how?

This policy will impact on the per pupil funding paid to special schools from the Dedicated Schools Grant, High Needs block.

Extensive financial modelling has been undertaken, in discussion with special school head teachers and finance managers, in order to minimise any changes in funding to schools. The aim has been to provide the same level of funding, but to streamline the system for allocating this funding to achieve greater clarity and predictability for schools in order to support their budget management.
