

# Developing children's services

SOUTHAMPTON  
**Children's** Hospital

# Current situation

- Children's services are dotted across the UHS site
- Many paediatric services are based in adult areas
- Not meeting all the needs of patients or their families.

# The future of children's services

- Bring all paediatric services under one roof
- Creating a 'hospital within a hospital'
- Co-location of services with main hospital
- Dedicated entrance to a state-of-the-art children's hospital
- Environment suited to young people and their families.
- A service for all stakeholders to be confident in
- Improved transition of care for patient's with long-term conditions

# Where, what and when

- Situated on east side of Southampton General Hospital site
- Linked to main hospital via a corridor
- Modular approach
- Parent accommodation
- Due for completion in 2020.

# The vision

# Our catchment
