

Agenda Item 16b

AGENDA ITEM 16(b) - Carbon Reduction

Amendment

In paragraph 1 line 2, replace "2045" replace with "the Government target of 2050 and the City Council target by 2030".

In paragraph 3 add "or Triple Glazing if possible" after the word "throughout".

Proposed by (Name) Councillor Darren Sanders

Seconded by (Name) Councillor David Ashmore

To therefore read as follows:

The City Council recognises that to achieve Carbon neutral status by the Government target of 2050 and the City Council target by 2030 will be a major endeavour, but one that is needed if we are to confront the climate emergency.

The City Council therefore commits to using the emerging Portsmouth Local Plan to push for the highest standards of environmental enhancements that the Government will allow. So that all new build properties in Portsmouth will have:

Solar Panels to reduce fossil fuel energy use
The highest levels of insulation in roof spaces and walls
Double glazing throughout, or Triple Glazing if possible.

The City Council asks the Cabinet to look at how to make sure that the maximum number of homes benefit from higher environmental standards, any property where there is a change to the roof would have to install solar panels and the highest levels of insulation in roof spaces.

The City Council will also lobby the Government to provide funding and the powers to retrofit solar panels and better insulation to all properties in Portsmouth.

AGENDA ITEM 16(b) - Carbon Reduction

Amend first paragraph to read as follows:

Insert the after "The City Council recognises that," the words "**as per the Climate Emergency motion passed by this Council in March 2019,**" and replace the words "Carbon neutral status by 2045" with "**Net zero carbon status by 2030**".

The first paragraph to therefore read:

"The City Council recognises that, as per the Climate Emergency motion passed by this Council in March 2019, to achieve Net zero carbon status by 2030 will be a major endeavour, but one that is needed if we are to confront the climate emergency."

Proposed by (Name) Councillor George Fielding

Seconded by (Name) Councillor Cal Corkery

To therefore read as follows:

The City Council recognises that, as per the Climate Emergency motion passed by this Council in March 2019, to achieve Net zero carbon status by 2030 will be a major endeavour, but one that is needed if we are to confront the climate emergency.

The City Council therefore commits to using the emerging Portsmouth Local Plan to push for the highest standards of environmental enhancements that the Government will allow. So that all new build properties in Portsmouth will have:

Solar Panels to reduce fossil fuel energy use
The highest levels of insulation in roof spaces and walls
Double glazing throughout, or Triple Glazing if possible.

The City Council asks the Cabinet to look at how to make sure that the maximum number of homes benefit from higher environmental standards, any property where there is a change to the roof would have to install solar panels and the highest levels of insulation in roof spaces.

The City Council will also lobby the Government to provide funding and the powers to retrofit solar panels and better insulation to all properties in Portsmouth.

AGENDA ITEM 16(b) - Carbon Reduction

Amendment

Paragraph 2: replace 'commits to' with 'asks that the Cabinet considers'

Replace 'Portsmouth will' with 'Portsmouth would'

After paragraph 4 insert

The City Council recognises that developer contributions can only be set at a level that ensures the viability of delivering the sites identified in the Local Plan. These contributions include the Community Infrastructure Levy, Affordable Housing Contributions, other Section 106 payments and the Solent Special Protection Areas Levy.

Council recognises that any locally imposed environmental standards could necessarily result in additional costs for developers and hence mean a reduction in the surplus available to fund contributions. This could mean either lower cash receipts or reductions in the amount of affordable housing provided.

Council considers this a complicated trade-off. It therefore calls on the Cabinet to consider developer obligations in their totality.

Proposed by (Name) Councillor Luke Stubbs

Seconded by (Name) Councillor Donna Jones

To therefore read as follows:

The City Council recognises that to achieve Carbon neutral status by 2045 will be a major endeavour, but one that is needed if we are to confront the climate emergency.

The City Council therefore asks that the Cabinet considers using the emerging Portsmouth Local Plan to push for the highest standards of environmental enhancements that the Government will allow. So that all new build properties in Portsmouth would have:

Solar Panels to reduce fossil fuel energy use
The highest levels of insulation in roof spaces and walls
Double glazing throughout.

The City Council asks the Cabinet to look at how to make sure that the maximum number of homes benefit from higher environmental standards, any property where there is a change to the roof would have to install solar panels and the highest levels of insulation in roof spaces.

The City Council recognises that developer contributions can only be set at a level that ensures the viability of delivering the sites identified in the Local Plan.
