SUPPLEMENTARY AGENDA

4. **Local Development Scheme update - Supplementary agenda**

Local Development Scheme update

Please find an updated paragraph 4.5 of the report below:

'The main risk to the LDS and the preparation of the new Portsmouth Local Plan is national changes to the planning system. As discussed in paragraph 3.5 above an updated National Planning Policy Framework (NPPF) was published in December 2023 and set out key milestones by which local plans should be completed under the current system of plan making. If the Portsmouth Local Plan were to miss these deadlines the City Council would need to start afresh under the new system, and this would inevitably be very costly.'
