837. Clerk's Items (AI 6)

The Clerk to the Joint Committee reported that a grounds clearance was undertaken recently, following one month's advance notice during August. A considerable amount of memorial items and related material were removed and placed into store, to await collection by families. He reported receipt of correspondence from a Gosport resident complaining about the way in which the clearance had been undertaken and the way in which items had been stored.

The Manager and Registrar explained the procedure that was followed by staff in removing items from the grounds and placing them into large crates, which were then placed on shelves in a small store room, to await public collection. Anything not collected by the time of the next clearance was treated as abandoned and then disposed of. The recent clearance was the first for 12 months, and there had been a number of instances of staff being subjected to verbal abuse, both in person and by telephone.

Members discussed the issues arising and the long standing policy that no permanent memorials, plaques and other ornaments are permitted to be left in the grounds. This requirement was made clear on the forms signed by relatives at the time of booking a funeral. Signs to this effect were also displayed in the grounds.

Whilst members understood why some families wished to try and leave lasting tributes, there was concern at the appearance of such items and the effect upon the gardens. Arising from discussion it was agreed that the officers bring forward for consideration at a future meeting options for addressing the problems arising from the unauthorised deposit of memorials, plaques and similar items in the grounds of the crematorium.

RESOLVED that the Clerk to the Joint Committee, in consultation with the other officers, bring forward a report for consideration on options for addressing the problems arising from the unauthorised deposit of memorials, plaques and similar items in the grounds of the crematorium.

838. Risk Management (AI 7)
