1. Apologies for absence

Apologies from Councillors Kirsty Mellor and Gemma New.

2. Joint Municipal Waste Management Strategy

David Emmett, Head of Waste Collection & Disposal introduced the report.

Councillor Ashmore was pleased to see all the targets including:

The reduction of carbon emissions targets included as that ties in with the council trying to reach the net zero target.

Local authorities working together across the local area to align the recycling services.

Extended producer responsibility which would place the burden onto the people that make the products and work as an incentive for them to reduce the amount of packaging in the first place.

He also noted that the Environment Bill will include a glass deposit return scheme. This had worked in quite a few countries including Norway where over 90% of glass bottles are recycled.
