
NOTICE OF MEETING

CABINET

MONDAY, 14 FEBRUARY 2022 AT 1PM

COUNCIL CHAMBER, SECOND FLOOR, THE GUILDHALL

Telephone enquiries to 023 9283 4060

Email: Democratic@portsmouthcc.gov.uk

Please note the public health requirements for attendees at the bottom of the agenda.

Information with regard to public access due to Covid precautions

- Attendees will be requested to undertake an asymptomatic/ lateral flow test within 48 hours of the meeting. Around one in three people who are infected with COVID-19 have no symptoms so could be spreading the virus without knowing it. Asymptomatic testing – getting tested when you don't have symptoms - helps protect people most at risk by helping to drive down transmission rates. We strongly encourage you to take up the habit of regular asymptomatic testing to help prevent the spread of coronavirus to your colleagues and residents you work with.
- We strongly recommend that attendees should be double vaccinated, and if eligible, have received a booster.
- If symptomatic you must not attend and self-isolate following the stay-at-home guidance issued by UK Health Security Agency.
- All attendees are required to wear a face covering while moving around within the Guildhall and are recommended to continue wearing a face covering in the Council Chamber except when speaking.
- Although not a requirement, attendees are strongly encouraged to keep a social distance and take opportunities to prevent the spread of infection.
- Hand sanitiser is provided at the entrance and throughout the Guildhall. All attendees are encouraged to make use of hand sanitiser on entry to the Guildhall and are requested to follow the one-way system in place.
- Attendees are encouraged book in to the venue (QR code). An NHS test and trace log will be retained and maintained for 21 days for those that cannot or have not downloaded the app.

Membership

Councillor Gerald Vernon-Jackson CBE (Chair)

Councillor Suzy Horton (Vice-Chair)

Councillor Chris Attwell

Councillor Dave Ashmore

Councillor Kimberly Barrett

Councillor Ben Dowling

Councillor Jason Fazackarley

Councillor Hugh Mason

Councillor Darren Sanders

Councillor Lynne Stagg

(NB This agenda should be retained for future reference with the minutes of this meeting.)

Please note that the agenda, minutes and non-exempt reports are available to view online on the Portsmouth City Council website: www.portsmouth.gov.uk

Deputations by members of the public may be made on any item where a decision is going to be taken. The request should be made in writing to the contact officer (above) by 12 noon of the working day before the meeting, and must include the purpose of the deputation (for example, for or against the recommendations). Email requests are accepted.

AGENDA

1 Apologies for Absence

2 Declarations of Interests

3 Minutes of the previous meeting.

The minutes of the meeting held on 8 February will follow.

4 Port Masterplan (Pages 9 - 28)

Purpose.

The Department for Transport (DfT) has long encouraged major UK transport facilities to produce a master plan. In relation to ports, DfT guidance suggests that the purpose of such plans should be to:

- Clarify the port's own strategic planning for the medium to long term.
- Assist regional and local planning bodies, and transport network providers, in preparing and revising their own development strategies and
- Informing port users, employees and local communities as to how they can expect to see the port develop over the coming years.

Portsmouth International Port (PIP) is a publicly owned port and so whilst it must ensure that its decision making and planning is transparent and democratically accountable, it must also do so sensitive to its position operating in a commercially competitive environment.

Portsmouth International Port's (PIP) current master plan was published in

2006 and is due to a number of significant national changes (such as Brexit and Covid Pandemic) and the city vision, this no longer meets PIP's objectives.

Since 2020, PIP has undertaken a significant amount of work in preparation for the publication of its new Port Master Plan.

This report seeks to outline the framework (which will be referred to as 'the Development Master Plan') from which the Port Master Plan will be based.

RECOMMENDED that the Cabinet:

- 1. Approve the principles outlined in the Development Master Plan and**
- 2. Recommends that the report is presented to Full Council for endorsement; and**
- 3. Delegate authority to the Port Director, in consultation with the Leader, s151 officer and City Solicitor to finalise and publish the Port Master Plan in line with the principles outlined in the Development Master Plan.**

Members of the public are permitted to use both audio-visual recording devices and social media during this meeting, on the understanding that it neither disrupts the meeting nor records those stating explicitly that they do not wish to be recorded. Guidance on the use of devices at meetings open to the public is available on the Council's website and posters on the wall of the meeting's venue.

This meeting is webcast (videoed), viewable via the council's livestream account at [Portsmouth City Council on Livestream](#)

Whilst every effort will be made to webcast this meeting, should technical or other difficulties occur, the meeting will continue without being webcast via the council's website.

This page is intentionally left blank

Agenda Item 4

Title of meeting:	Cabinet
Date of meeting:	14 February 2022
Subject:	Portsmouth International Port 20-Year Development Master Plan
Report by:	Mike Sellers, Port Director
Wards affected:	All
Key decision:	Yes
Full Council decision:	Yes

1. Purpose of report

- 1.1. The Department for Transport (DfT) has long encouraged major UK transport facilities to produce a master plan. In relation to ports, DfT guidance suggests that the purpose of such plans should be to;
 - Clarify the port's own strategic planning for the medium to long term;
 - Assist regional and local planning bodies, and transport network providers, in preparing and revising their own development strategies; and
 - Informing port users, employees and local communities as to how they can expect to see the port develop over the coming years.
- 1.2. Portsmouth International Port (**PIP**) is a publicly owned port and so whilst it must ensure that it's decision making and planning is transparent and democratically accountable, it must also do so sensitive to its position operating in a commercially competitive environment .
- 1.3. Portsmouth International Port's (PIP) current master plan was published in 2006 and due to a number of significant national changes (such as Brexit and the Covid Pandemic) and the city vision, this no longer meets PIPs objectives.
- 1.4. Since 2020, PIP has undertaken a significant amount of work in preparation for the publication of its new Port Master Plan.
- 1.5. This report seeks to outline the framework (which will be referred to as "the Development Master Plan") from which the final Port Master Plan will be based.

2. Recommendations

- 2.1. That Cabinet;
 - 2.1.1. Approve the principles outlined in the Development Master Plan; and
 - 2.1.2. Recommends that the report is presented to Full Council for endorsement; and,

- 2.1.3. Delegate authority to the Port Director, in consultation with the Leader, s151 officer and City Solicitor to finalise and publish the Port Master Plan in line with the principles outlined in the Development Master Plan

3. Background

- 3.1.** PIP is now close to finalising a long-term port master plan which will set out a 20-year development road map for the UK's largest and most successful municipal port. The Port handles significant volumes of cargo and passengers every year, and in 2019 PIP handled 3.4 million tonnes of cargo and 4.6 million passengers both within the UK and globally. PIP is also a major contributor towards both the local and national economy delivering £189 million to the Portsmouth City Council area and supporting 2,420 local jobs in the 2017/2018 financial year. PIP also supports indirect jobs and businesses in the shipping supply chain and therefore has a far-reaching influence, contributing an estimated £390million to the wider UK economy and supporting a further 5,590 jobs nationwide. As an example, the diverse range of jobs that are related to the Port operations include hauliers, pilots, engineers, mechanics, fitters, stevedores, border officials, port admin staff, retail staff, customs agents, and IT technicians.
- 3.2.** UK and global trade relies on PIP to handle a significant share of the market. Four million tonnes of cargo are handled annually. £300 million worth of bananas handled each year with a total value of non-EU trade valued at £450 million.
- 3.3.** Over the past two years PIP has commissioned Royal Haskoning DHV to carry out an independent market forecast study and an extensive stakeholder and customer consultation campaign. The following objectives were set:
- Produce a clear 20-year port development road map
 - Promote green ports initiatives.
 - Make improvements to cruise and ferry facilities.
 - Make improvements to load-on/load-off cargo facilities.
 - Enhance port integration with the City of Portsmouth.
 - Post Brexit transition preparedness.
 - Improve port resilience against market fluctuations and trends.
 - Promotion of technology and innovation.
- 3.4.** Key development projects have been identified for the Masterplan which accommodates the future cargo and business growth potential forecast. As a summary, the core developments proposed in each of the key categories are as follows:
- 3.5. Green port targets**
- PIP intends to be a net carbon neutral port by 2030 and the UK's first zero emission port by 2050. The Masterplan has identified the following to support this:
- Increased electrification of cargo handling equipment and vehicles.

- Utilisation of more efficient operations through alternate technology and logistic models such as truck pre-gates, automation and vehicle booking systems etc.
- Support customers to transition to green shipping using cleaner fuels and shore power.
- Encourage to work with clean operations and businesses.
- Maintain PIP's momentum on green and sustainable energy utilisation by looking at other alternatives such as LNG and battery technology.
- Capitalise on carbon offset opportunities such as carbon capture, integrated park and ride schemes and green tenant initiatives etc.

3.6. Ferry and Roll on-Roll off (RoRo) terminal development

- As a result of the new trade deal with the EU and changes in freight from driver accompanied to unaccompanied trailers and containers, one of the most pressing and urgent problems for PIP to resolve in the master plan is the future accommodation of additional Ro-Ro traffic volumes within the current footprint of the port. Therefore, plans have been drawn up for the creation of additional unaccompanied trailer storage capacity through generation of more space both adjacent to the Port and through external truck parking and pre-gate facilities further outside of the Port.
- Provision of automated freight gates to increase efficiency and reduction of emissions from trucks.
- Critical road junction upgrades for the entry and exit points of the Port.

3.7. Cruise ship services upgrade

- Cruise ship service upgrades including optimised berthing and passenger terminal service facilities for larger cruise ships which are now calling at the Port with call frequency forecasted to increase.
- Terminal upgrades to accommodate new low carbon passenger transport services within the terminal.
- Development support for cruise parking at the Park and Ride.

3.8. Portico Load on-Load off terminal developments

- Berth strengthening, deepening to provide greater flexibility and capacity to accept larger vessels.
- Optimise and rationalise the land side terminal space to provide greater flexibility of cargo storage and operational efficiency.
- Additional terminal space is required by acquiring adjacent land to the Portico Terminal to accommodate existing customer's needs and maintaining cargo volume throughput. The current lack of space in the terminal is a major hurdle in realising the potential for handling more lucrative and varied cargo types that are eager to utilise the Portico Terminal in the future.
- The new Border Control Post warehousing requirements as a result of Brexit means that valuable operational space at the Portico Terminal has been lost and this space needs to be replaced.

3.9. Solent Freeport approval

- PIP plays a vital part of the Solent Freeport project and has potential to attract major benefits to the region as it provides opportunities for job creation through encouraging businesses to develop and grow.
- PIP has been identified as a customs site, with one of the tax sites also located at the nearby Dunsbury Park, a large business park off the A3 owned by Portsmouth City Council.
- Dedicated transport hub, located within access of PIP for tax free trade.
- Supply chain solution through increased capacities.
- Value added facilities for customer, drop and go and simplified customs clearance.
- Fresh produce processing (customs free) for re-exporting.
- Ambition to be fully automated transport solution between the sites.
- Enhances air quality while attracting trade to PIP.

4. Master Plan Themes

The Masterplan has four distinct categories:

4.1. Environment and Sustainability

- 4.1.1. The environment and sustainability are our priority areas for the future development of the port. PIP intends to be net carbon neutral by 2030 and to become UK's first Zero Emissions Port by 2050.
- 4.1.2. The Port is committed to build on the achievements to date with our sustainable goals and are determined to show that the port is able to lead the way on environmental standards. PIP will continue to support and work with the city, our customers and stakeholders to pursue the same green port ambitions in the future.

4.2. Society and the Economy

- 4.2.1. PIP aims to maintain our position as the UK's most successful local authority owned port. We are proud of our role as a major contributor in the UK's marine and maritime industry and are determined to continue playing our part both in the national and local economy.
- 4.2.2. We are fully aware of the port's importance to many communities with our role as a major employer, critical freight handler and life line port to many. This is why we are committed to ensure the port can continue to thrive and evolve, looking at ways to diversify and increase opportunities through improved trade and new quality services within the marine and maritime industry.
- 4.2.3. PIP will continue to champion positive relationship improvements which include mental health, diversity and women in maritime, as well as wider improvements with port users (customers and consumers) and building strong community relationships (such as with the university, colleges, schools, Portsmouth Football Club, fishing and marine leisure community).

4.3. Resilience and Security

- 4.3.1. PIP has proven, during these unprecedented times of pandemic and economic challenges, that we were dedicated in supporting our customers and the nation to weather the challenges together. As we now work hard to adapt to the new norms of the future and to restart our sectors, we are more determined than ever to increase our resilience and upgrade our services in the cruise, ferry and traditional freight sectors so that future demands and trends in the shipping and maritime industry can be accommodated safely and efficiently. We will continuously look for opportunities to expand our port both internally and externally so we become more agile and flexible to serve our existing and future customers.

4.4. Innovation and Technology

- 4.4.1. PIP will explore opportunities for leveraging suitable cutting-edge technologies to provide world-class services to our customers with an aim to maximise operational efficiency and productivity. In addition, we are constantly looking at ways to innovate and drive technological advancements in the port with every day activities to support our future growth and collective ambitions both in sustainability and operational excellence.
- 4.4.2. We will work with our customers and the city to be integrated in technology and to bring the port community closer together digitally.
- 4.4.3. Through the upgrade of our organisation and infrastructure, we aim to mature as a Smart Port which will be in positioned to capitalise on the industry 4.0 revolution within the ports and maritime sector.

5. Infrastructure development

5.1. Roll On / Roll Off (RoRo)

- 5.1.1. The end of the EU transition period, the introduction of new ferries with larger freight capacity and the shift from driver accompanied cross channel freight to unaccompanied freight will see a greater demand on operational port land. By 2025 the port needs 4.5 hectares of land and a further 3.4 hectares of land by 2030 to maintain core businesses organic growth.
- 5.1.2. The port has written to planners during the consultation on the Local Plan to ensure that this is taken into account so that the land north of Morrison's site and land adjacent to the port boundary remain zoned as employment land for future port expansion.
- 5.1.3. Additionally, PIP is in advanced discussions with the landowner for a 6 hectare site outside of the city boundary but near the port that can be developed in two phases to meet the demands of the port. The development of the site will provide storage for unaccompanied freight, pre-gate booking and holding of driver accompanied freight to avoid congestion on the M275 and will include good quality shower, toilet and canteen facilities for drivers.
- 5.1.4. Other developments within the master plan for RoRo include
- Border Control Post.
 - The provision of power for hybrid cross channel ferries.
 - A new passenger boarding bridge.
 - Linkspan and port facilities for a possible start up electric ferry service to the Isle of Wight.
 - Automated freight gates and car booths.
 - Expansion of search facilities.
 - Transport development plans at Whale Island Way and Rudmore roundabout to improve the flow of traffic around the port.
 - Utilisation of smart technology for hauliers and carriers, including integrated port community system.

5.2. Cruise

- 5.2.1. Recently, PIP has gained a good reputation in serving luxury, boutique and expedition cruise ships. We will continue to develop good quality infrastructure that is fit for purpose for our customers. The port passenger terminal extension will be completed in time for the 2023 cruise season and will be future proofed to add a high level walkway and passenger boarding bridge to the cruise berth.
- 5.2.2. The Park and Ride development plans also take into account the demand for cruise parking as the port cruise calls continue to grow.

- 5.2.3. Other plans include an extension to the cruise berth and to provide power to the berth in order to accommodate larger cruise ships that can run on electric power while passengers enjoy the first class tourist attractions around the city.
- 5.2.4. These plans will provide the catalyst for tourism, high quality hotels and supply chain SME growth around the city with each call providing up to £1.5 million to the Portsmouth economy.

5.3. Lift On / Lift Off (LoLo)

- 5.3.1. The Port Masterplan has taken into the account the changes in imports of fresh produce, the increase in demand for container storage and diversification of cargos at the Portico Terminal. Development plans include:
- Re-configuring terminal facilities including demolition of temperature controlled warehousing to provide capacity to handle up to 140,000 TEU (twenty foot equivalent) per annum.
 - Strengthening and deepening of Albert Johnson Quay for short sea feeder container carriers.
 - Development of an aggregate terminal facility behind Flat House Quay.
 - Hard standing capability for project cargo and other palletised goods.
 - Good quality warehousing for general cargo.
 - Automation of freight gates and utilisation smart technology for freight booking to manage the flow of freight to avoid peaks.

- Electrification of quayside to transition towards electric harbour mobile cranes and the electrification of port handling equipment.

6. Reasons for recommendations and 'Do Nothing' scenario

- 6.1. Unlike private ports where profits go to shareholders, as the largest municipal port in the country, PIP's 'shareholder' is the city of Portsmouth. The port's success is the city's success. Profits from port activity go towards essential council services.
- 6.2. PIP has been successful in implementing significant land side sustainable projects such as battery storage, solar PV and electrification of equipment. The port will continue to be a living laboratory for green technology. However, the port will need to provide the infrastructure to support the transition within the shipping industry towards green fuels that improve air quality, reduce and/or remove the use of fossil fuels.
- 6.3. As an island nations, 95% of the UK's trade is carried on ships. UK ports are experiencing a 'once in a generation change' with the EU which is changing the way freight is shipped. This has resulted in short term challenges with infrastructure and documentation, however ports adapt to these changes over time. PIP has the ability to take advantage to these changes but needs to provide (and expand) infrastructure to support our existing customers.
- 6.4. PIP is a significant economic driver for International travel and tourism and anticipates an almost instant bounce back for International travel as the county enters the endgame of the pandemic. The passenger terminal extension provides facilities to accommodate multiple ferry and cruise passenger activities.
- 6.5. However, strong long term cruise growth cannot be sustained unless further development is undertaken at the port after the market normalises post pandemic.
- 6.6. The port needs to adapt to the changes in fresh produce imports from palletised to containerised cargo and provide facilities for short sea container, dry bulk and project cargo to support the Portico business plan for diversification of cargo handling.
- 6.7. If the port does not change, the 'do nothing' scenario will see a loss in custom and cargo volumes due to the inability to provide the facilities for our core business partners plans and be unable to attract strong cruise and ferry growth. The economic contributions locally and nationally will decline with a reduction in GVA of 38.5% and potential loss in employment of 39% in the next 10 years.

7. Integrated impact assessment

- 7.1. Attached.

8. Legal implications

- 8.1. There is no statutory duty upon the Council (and by extension PIP as a department of the Council) to produce a Port Master Plan, however the need for such a plan is considered good practice by the Department for Transport (DfT).
- 8.2. Any decision which is likely to affect more than one portfolio is to be taken by the cabinet as a whole and so although the responsibility for PIP is within the Leader's portfolio, the impact across portfolios (such as transport, planning etc) necessitates this decision being taken by cabinet as a collective.

8.3. The Development Master Plan has not been considered on behalf of the City Solicitor.

9. Director of Finance's comments

9.1. The key identified projects within the master plan total a capital expenditure of £92.2million over 20 years. The economic benefit to the city of Portsmouth has the capability of reaching £357 million per annum as a result of the port master plan.

9.2. Each individual capital project will follow the democratic process after being financially assessed in order to be recommended for council approval.

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity - This can be found in Section A5

Directorate:

Portsmouth International Port

Service, function:

Port

Title of policy, service, function, project or strategy (new or old) :

Port Masterplan

Type of policy, service, function, project or strategy:

- ☐ Existing
- ☒ New / proposed
- ☐ Changed

What is the aim of your policy, service, function, project or strategy?

A 20 year development business plan focused on sustainable growth

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

No public consultation required however consultation with key stakeholders carried out by project consultants. The information assisted in developing the 20-year plan and key trade projections.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

If you want more information contact Lisa.Wills@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cou-spp-plan-2018-20.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Two key themes of the plan are 'society and economy' and 'resilience and security' which provide increases in direct and indirect jobs, economic which in turn support avoidance of crime and ASB etc.

How will you measure/check the impact of your proposal?

The port has their own police liaison meetings. Additionally, the support of masterplan will create significant good quality local jobs.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A2-Housing - Will it provide good quality homes?

In thinking about this question:

- How will it increase good quality affordable housing, including social housing?
- How will it reduce the number of poor quality homes and accommodation?
- How will it produce well-insulated and sustainable buildings?
- How will it provide a mix of housing for different groups and needs?

If you want more information contact Daniel.Young@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/psh-providing-affordable-housing-in-portsmouth-april-19.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

How are you going to measure/check the impact of your proposal?

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A3-Health - Will this help promote healthy, safe and independent living?

In thinking about this question:

- How will it improve physical and mental health?
- How will it improve quality of life?
- How will it encourage healthy lifestyle choices?
- How will it create healthy places? (Including workplaces)

If you want more information contact Dominique.Letouze@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cons-114.86-health-and-wellbeing-strategy-proof-2.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The priority of the masterplan is to develop clean technology to support the transition to new fuels, which in turn provide cleaner air and reductions in ambient pollution.

How are you going to measure/check the impact of your proposal?

There are 5 air quality sensors around the port providing live data.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

If you want more information contact Mark.Sage@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cou-homelessness-strategy-2018-to-2023.pdf>

<https://www.portsmouth.gov.uk/ext/health-and-care/health/joint-strategic-needs-assessment>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

90% of port employees live in the city. An increase in activity will provide for more good quality local jobs.

How are you going to measure/check the impact of your proposal?

The port intends to carry out economic output studies every 5-years.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A5-Equality & diversity - Will it have any positive/negative impacts on the protected characteristics?

In thinking about this question:

- How will it impact on the protected characteristics-Positive or negative impact (Protected characteristics under the Equality Act 2010, Age, disability, race/ethnicity, Sexual orientation, gender reassignment, sex, religion or belief, pregnancy and maternity, marriage and civil partnership,socio-economic)
- What mitigation has been put in place to lessen any impacts or barriers removed?
- How will it help promote equality for a specific protected characteristic?

If you want more information contact gina.perryman@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-equality-strategy-2019-22-final.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

the port will champion positive relationship improvements which include mental health, diversity and women in shipping, as well as wider improvements with the port community and building strong community relationships.

How are you going to measure/check the impact of your proposal?

Reports to Port Advisory Board include equality and diversity statistics.

B - Environment and climate change**Yes****No**

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

If you want more information contact Tristan.thorn@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-sustainability-strategy.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The port masterplan centers around the transition to green fuels and port side electrification to be net carbon neutral by 2030.

How are you going to measure/check the impact of your proposal?

Annual carbon audits and live air quality measures at the port.

B - Environment and climate change**Yes****No**

Is your policy/proposal relevant to the following questions?

B2-Energy use - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

If you want more information contact Triston.thorn@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/pln-portsmouth-plan-post-adoption.pdf>

<https://democracy.portsmouth.gov.uk/documents/s24685/Home%20Energy%20Appendix%201%20-%20Energy%20and%20water%20at%20home%20-%20Strategy%202019-25.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The master plan includes a number of initiatives to maximise use of energy from renewable sources.

How are you going to measure/check the impact of your proposal?

Each project has a sustainable and energy use review before being approved.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B3 - Climate change mitigation and flooding-Will it proactively mitigate against a changing climate and flooding?

In thinking about this question:

- How will it minimise flood risk from both coastal and surface flooding in the future?
- How will it protect properties and buildings from flooding?
- How will it make local people aware of the risk from flooding?
- How will it mitigate for future changes in temperature and extreme weather events?

If you want more information contact Tristan.thorn@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/env-surface-water-management-plan-2019.pdf>

<https://www.portsmouth.gov.uk/ext/documents-external/cou-flood-risk-management-plan.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

As B1 and B2

How are you going to measure/check the impact of your proposal?

As B1 and B2

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B4-Natural environment-Will it ensure public spaces are greener, more sustainable and well-maintained?

In thinking about this question:

- How will it encourage biodiversity and protect habitats?
- How will it preserve natural sites?
- How will it conserve and enhance natural species?

If you want more information contact Daniel.Young@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/pln-solent-recreation-mitigation-strategy-dec-17.pdf>

<https://www.portsmouth.gov.uk/ext/documents-external/pln-portsmouth-plan-post-adoption.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The port is the harbour authority with responsibility for marine biodiversity

How are you going to measure/check the impact of your proposal?

Through the transition to green fuels for shipping and support this with port infrastructure.

B - Environment and climate change**Yes****No**

Is your policy/proposal relevant to the following questions?

B5-Air quality - Will it improve air quality?

In thinking about this question:

- How will it reduce motor vehicle traffic congestion?
- How will it reduce emissions of key pollutants?
- How will it discourage the idling of motor vehicles?
- How will it reduce reliance on private car use?

If you want more information contact Hayley.Trower@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/env-aq-air-quality-plan-outline-business-case.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

See B1 and B2 Additionally, the introduction of an out of town pre-gate will further minimise congestion and improve air quality.

How are you going to measure/check the impact of your proposal?
