

Transport, Environment and Community Safety Scrutiny Panel

Review into how community safety partners can work together to reduce demand and cost for intensive specialist services currently supporting individuals with complex needs.

1. Background.

On 13 October 2015, the Scrutiny Management Panel allocated a review of community safety to this panel's work programme.

2. Objectives of the Enquiry.

In relation to complex cases of anti-social behaviour:

1. Identify ways that services could work more effectively together to manage individuals with complex needs.
2. Identify how partners could work together to reduce demand for partners services including mental health, substance misuse, community safety, police, probation and fire services.
3. Identify how residents can be encouraged to 'self-help' rather than ask for statutory services to intervene.
4. Identify how partners can intervene earlier to avoid cases becoming more and more difficult to resolve.

3. Possible Witnesses

- Director of Regulatory Services, Community Safety and Troubled Families.
