Subject: Asda Fratton extended opening hours

Good morning ,

As a Garnier street resident of over 30 years .

I am contacting you to express my extreme concern at the re submission of the planning application by Asda in Fratton road to grant them 24 hour opening .

This is a RESIDENTIAL area and my concern is that after many many months of our campaigning to get the one stop shop alcohol license restricted , and having the public telephone box finally removed which was being used as a drug dealers phone box AND then finally getting a gate in situ from Garnier street to Asda car park . All of that work to finally get some peace at night will be undone if this license is granted .

There is absolutely no requirement for a 24 hour supermarket in what is largely an area rife with anti social behaviour , this will just go to create more unlawful activity .

It will become a meeting place for drug dealers at night , Garnier street will once again become a rat run (a regular occurrence was having the wing mirrors kicked off of our cars) , it will be used as a parking area for shoppers who cannot be bothered to use the car park (believe me it happens all the time) thus keeping residents awake , and , sorely testing the patience of Garnier street residents who are charged £30.00 per year for the privilege of not being able to park in our own street !

We do not need this !

Please forward this email as an objection to this license .

Yours faithfully
Mrs Sharon Miller
