Title of policy, service, function, project or strategy (new or old) :

Play Out Pompey - Play Street Scheme

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

The aim is to allow residents to apply to temporarily close their residential road to allow children to safely play out in the street. The benefits are to improve air quality, promote physical activity and active travel, to provide road safety education and to allow children and adults to socialize with others in their

street.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

A pilot of the scheme has been undertaken in the form of 2 Play Street events being conducted on Francis Avenue. Pre and post event evaluation questionnaires were distributed to all households affected by the Play Street. The feedback was overwhelmingly positive, with no material objections received.

The scheme will aim to improve physical health by encouraging residents to spend more time being active outdoors. By setting this as a positive behaviour in childhood, young residents are more likely to continue being physically active outdoors later in life. In addition play streets are ideal for encouraging safe scooting and cycling practice; allowing parents and carers to have a safe space to teach children to cycle and improve their road safety knowledge. Mental health is positively impacted by physical activity, socialising, playing and being outdoors. All of these are central to the scheme.

How are you going to measure/check the impact of your proposal?

Ongoing evaluation of the scheme through pre and post event evaluation. Through case studies and feedback from residents participating in the scheme.
