

## **AGENDA ITEM 16(b) - Carbon Reduction**

Amendment

In paragraph 1 line 2, replace "2045" replace with "the Government target of 2050 and the City Council target by 2030".

In paragraph 3 add "or Triple Glazing if possible" after the word "throughout".

Proposed by (Name) Councillor Darren Sanders

Seconded by (Name) Councillor David Ashmore

To therefore read as follows:

The City Council recognises that to achieve Carbon neutral status by the Government target of 2050 and the City Council target by 2030 will be a major endeavour, but one that is needed if we are to confront the climate emergency.

The City Council therefore commits to using the emerging Portsmouth Local Plan to push for the highest standards of environmental enhancements that the Government will allow. So that all new build properties in Portsmouth will have:

Solar Panels to reduce fossil fuel energy use  
The highest levels of insulation in roof spaces and walls  
Double glazing throughout, or Triple Glazing if possible.

The City Council asks the Cabinet to look at how to make sure that the maximum number of homes benefit from higher environmental standards, any property where there is a change to the roof would have to install solar panels and the highest levels of insulation in roof spaces.

The City Council will also lobby the Government to provide funding and the powers to retrofit solar panels and better insulation to all properties in Portsmouth.
