Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Executive

Service, function:

Strategy Unit

Title of policy, service, function, project or strategy (new or old) :

Building Safer Communities (aka Community Crime Reduction Fund)

Type of policy, service, function, project or strategy:

☒ Existing

☐ New / proposed

☐ Changed

What is the aim of your policy, service, function, project or strategy?

The purpose of the fund, established in February 2019 by the Cabinet Member for Community Safety, is to provide opportunities and financial support to engage residents in the development and delivery of innovative crime reduction initiatives in their area of the city. This assessment cannot cover all the individual projects that will be developed so an integrated impact assessment will be one of the

requirements of the process to present proposals to the Cabinet Member for Community Safety and the resident's panel referenced in the report (see item 8).

The crime reduction projects will be developed for the community, by the community, based on one or more of the themes identified by each community group consulted (see appendix 1 for details) which are summarised at a city wide level below:

- A. Activities for children and young people - the message was clear; we need to consult with young people themselves to understand what they need. There was also support for activities to bridge the generation gap.
- B. Policing - residents expressed their strong support for community policing and community wardens
- C. Community cohesion - the community is ready to get involved to make things happen
- D. Road Safety - particularly the need for more effective traffic calming measures, safer cycling routes and protection for pedestrians from cyclists
- E. Public transport - in particular the need for an affordable and regular bus services

PCC directors have been made aware of the findings above.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Consultation was undertaken in March 2020 with six community groups identified as key areas for crime reduction measures. The findings are attached as appendix 1 to the report. This consultation has informed the second phase of the project.
