

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Regeneration

Service, function:

Transport Planning

Title of policy, service, function, project or strategy (new or old) :

Portsmouth City Council rental e-scooter trial

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

It is proposed to procure an E-scooter provider to operate a trial rental scheme in Portsmouth. The aim of this project would be to reduce reliance on vehicular transport by offering an effective and easy access alternative, to be used specifically when needed, helping to reduce congestion and pressure on the road network and encourage greener alternatives to have a positive impact on air pollution in

Portsmouth.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Engagement is planned with key stakeholders.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Offering residents and employees in the city the opportunity to become a member of an e-scooter trial would provide an accessible and cost effective means of travel, supporting a positive quality of life. Once fully established, it is hoped that the e-scooter trial would help to reduce the volume of traffic, improving the quality of life for the residents along with the air quality.

How are you going to measure/check the impact of your proposal?
Record the membership and usage of the e-scooter and its vehicles.
Monitor the routes and usage of e-scooters.
Monitor on-street parking demand across the city.
Monitor the number of vehicles within the city.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

This project could support easier travel for those who cannot afford a private vehicle but are able to use an e-scooter giving them wider freedom to travel across the city being able to travel quickly and easily through only having to pay an instant small fee.

How are you going to measure/check the impact of your proposal?
Through monitoring of the trial.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A5-Equality & diversity - Will it have any positive/negative impacts on the protected characteristics?

In thinking about this question:

- How will it impact on the protected characteristics-Positive or negative impact (Protected characteristics under the Equality Act 2010, Age, disability, race/ethnicity, Sexual orientation, gender reassignment, sex, religion or belief, pregnancy and maternity, marriage and civil partnership,socio-economic)
- What mitigation has been put in place to lessen any impacts or barriers removed?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Young children and older people may be more vulnerable to sharing paths with e-scooters due to reduced lack of awareness, and/or ability to move and allow them to pass as required.

Those with visual, hearing or mobility impairments may be impacted through sharing paths with e-scooters through reduced awareness of their presence and/or ability to move and allow them to pass as required.

There may be a detrimental impact to pregnancy and maternity with e-scooters sharing paths with heavily pregnant individuals who are less able to move and let e-scooters pass as required and those using prams less able to maneuverer to let e-scooters pass as required.

How are you going to measure/check the impact of your proposal?
Engagement with stakeholders, monitoring of the trial.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

A e-scooter trial could reduce the need to use vehicular transport for some people in the city, resulting in a reduction in private vehicle miles driven in the city.

How are you going to measure/check the impact of your proposal?
Monitor traffic levels and quality within the city over the coming years.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B2-Energy use - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

it is possible that the e-scooter trial would reduce the need to use vehicular transport to some people, resulting in a reduction in private vehicle miles driven in the city, and the energy required to run the vehicles

How are you going to measure/check the impact of your proposal?

Monitor uptake of e-scooter trial membership and traffic within the city over the coming years.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B3 - Climate change mitigation and flooding-Will it proactively mitigate against a changing climate and flooding?

In thinking about this question:

- How will it minimise flood risk from both coastal and surface flooding in the future?
- How will it protect properties and buildings from flooding?
- How will it make local people aware of the risk from flooding?
- How will it mitigate for future changes in temperature and extreme weather events?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This project would assist in reducing traffic volume and congestion by offering a suitable alternative at key positions within the city, leading to a reduction in air pollution, particularly NO2 and particulate matter.

How are you going to measure/check the impact of your proposal?
Assess air quality data for Portsmouth over the coming years.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B6-Transport - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Through offering a credible alternative transport mode for residents and visitors. it is expected that this scheme would encourage some residents to choose to use an e-scooter instead of a vehicle, helping to reduce congestion and high volumes of traffic. This would result in a safer and more pleasant environment for pedestrians and cyclists.

How are you going to measure/check the impact of your proposal?
Monitor uptake of e-scooter scheme membership and usage patterns along with other vehicle movements within the city.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B7-Waste management - Will it increase recycling and reduce the production of waste?

By offering an e-scooter trial this scheme would offer an attractive option for visitor and resident travel, particularly at locations where there is limited parking. Portsmouth will be one of a limited number of cities to have these legal rental e-scooters making it an attractive proposition for visitors and residents to try.

How are you going to measure/check the impact of your proposal?

Monitor usage and growth of the e-scooter in key retail and attractions in the city.

Q8 - Who was involved in the Integrated impact assessment?
