

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & diversity

Directorate:

Culture, Leisure and Regulatory Services

Service, function:

Licensing

Title of policy, service, function, project or strategy (new or old) :

Hackney Carriage and Private Hire Statement of Licensing Policy: Operator and Council Signage on Licensed Vehicles

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

The Hackney Carriage and Private Hire Statement of Licensing Policy sets out the way in which the Licensing Authority will exercise its statutory duty for the control, supervision and enforcement of the hackney carriage and private hire trade within Portsmouth. Specifically the change in policy in relation

to Council signage on licensed vehicles follows a meeting of the Licensing Committee on 20 February 2020.

Has any consultation has been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

The policy in relation to signage has been reviewed having regard to some trade representatives wishing to see the removal of signage from licensed vehicles. Hackney and Private Hire Trade representatives have been consulted on their views and in addition the Licensing Authority has surveyed other local authorities to identify processes and policies in England, Wales and Scotland so far as they relate to vehicle livery.

A - Communities and safety

Yes

No

Is your policy, proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

Please expand on the impact on these issues your proposal will have, and how you propose to mitigate any negative impacts?

The adjustment to the previous policy so as to allow for magnetic signage on licensed vehicles and still require the display of Council signage will ensure that the primary and overriding objective of the policy will be to protect the public, which includes the most vulnerable in the community.

The use of livery on a licensed vehicle clearly identifies its use and purpose and differentiates between a private hire and hackney carriage. It also, perhaps more importantly, distinguishes between licensed vehicles and those which are unlicensed.

It offers a reassurance to members of the public that the vehicle is licensed by Portsmouth and the livery is designed in such a way that members of the public or other road users can identify the number of the vehicle should the conduct of the driver or the condition of the vehicle need to be reported to the licensing authority.

How will you measure/check the impact of your proposal?

The change of policy to allow magnetic signage will be reviewed after 12 months.

Various safeguards in relation to ensuring that Council signage is displayed on vehicles at all times they are available for hiring include a change of design to deter theft of magnetic signage; additional conditions for private hire drivers and hackney carriage and private hire vehicle proprietors; new penalty points system for failure to display livery; use of licensing database to monitor complaints etc.

The policy has been amended to allow flexibility for display of livery. This will result in no impact on air quality as fears regards idling vehicles are not affected as livery must still be displayed at relevant times.

How are you going to measure/check the impact of your proposal?

Magnetic signage will also include registration number of vehicle to ensure that persons can identify their vehicle. See comments above for mitigation of negative impacts.

Portsmouth has a comprehensive policy for the control and supervision of the hackney carriage and private trade. Drivers and vehicles are sometimes the first point of contact for visitors to the city and we want to ensure that people feel safe whilst visiting and living in the city. Without necessary protection and public reassurance, this could have a damaging effect upon the city and its reputation.
