www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Housing, Neighbourhoods and Building Services

Service, function:

Tackling poverty

Title of policy, service, function, project or strategy (new or old) :

Tackling poverty action plan 2020

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To reduce the number of people in Portsmouth living in poverty, and reduce the impact of negative effects of living in poverty for people in financial hardship, with a particular focus on the impacts of the pandemic in relation to poverty in the city.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Consultation with the Tackling Poverty Steering Group, a multi-agency advisory group that supports the work of the council's Tackling Poverty Coordinator.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?

If you want more information contact Lisa.Wills@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cou-spp-plan-2018-20.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Any relationship between financial deprivation and crime is complex, and there is no evidence that delivering the outlined tackling poverty action plan will directly lead to a reduction in crime. The Community Safety Survey 2020 found that people who are unemployed were statistically more likely to be victims of crime, but there is no evidence that helping an individual to find or maintain employment will reduce the risk that they will be a victim of crime. Measuring any impact on crime or personal safety is outside of the scope of this action plan.

How will you measure/check the impact of your proposal?
No specific measures focused on reduction in crime.

The action plan includes action to reduce homelessness and to tackle fuel poverty by making homes warmer.

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Poverty has a wide-ranging effect on health and wellbeing, and therefore action to reduce poverty will improve health outcomes. Safe, independent living will be promoted through action on digital inclusion, which enables people to stay connected to their community through periods of self-isolation. Action on fuel poverty creates healthier home environments.

How are you going to measure/check the impact of your proposal?

Measure outcomes in relation to reducing poverty and increasing digital inclusion, and reducing fuel poverty.

Because of the impact of discrimination and exclusion, many of those with protected characteristics are at greater risk of poverty. Action to tackle poverty and the effects of poverty will therefore have a proportionally greater positive effect for residents with protected characteristics. No negative impacts have been identified.

How are you going to measure/check the impact of your proposal?
Monitoring the demographics of those assisted under this action plan.

If you want more information contact Tristan.thorn@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-sustainability-strategy.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Action to make homes warmer reduces wasted energy and associated greenhouse gas emissions. However, many fuel poor households currently use less energy than required for a safe and reasonable standard of living, so some households will use more energy after intervention through this action plan. However, it is not sustainable for households to use less energy than they need.

How are you going to measure/check the impact of your proposal?

Where possible, monitor household energy consumption before and after interventions, and measure improvements in energy efficiency.
