

# Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

[www.portsmouth.gov.uk](http://www.portsmouth.gov.uk)

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
  - Communities and safety
  - Regeneration and culture
  - Environment and public space
  - Equality & - Diversity - This can be found in Section A5

**Directorate:**

Culture, Leisure and Regulatory Services

**Service, function:**

Parks Service

**Title of policy, service, function, project or strategy (new or old) :**

Introduction of recycling bins to Southsea Common (as a trial for wider roll-out).

**Type of policy, service, function, project or strategy:**

- Existing
- New / proposed
- Changed

**What is the aim of your policy, service, function, project or strategy?**

To enable residents to have use of recycling bins for plastic bottles and metals cans within public open spaces, as an alternative to using general waste bins.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

No. It is a result of public enquiry and society's will to recycle materials when using Portsmouth's most popular public space and that can be collected without contamination by general waste (that results in it not being recyclable)

**A - Communities and safety**

Yes

No

Is your policy/proposal relevant to the following questions?

**A1-Crime** - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

**A - Communities and safety**

Yes

No

Is your policy/proposal relevant to the following questions?

**A2-Housing** - Will it provide good quality homes?

In thinking about this question:

- How will it increase good quality affordable housing, including social housing?
- How will it reduce the number of poor quality homes and accommodation?
- How will it produce well-insulated and sustainable buildings?
- How will it provide a mix of housing for different groups and needs?

## B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

**B1-Carbon emissions** - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

If you want more information contact [Tristan.thorn@portsmouthcc.gov.uk](mailto:Tristan.thorn@portsmouthcc.gov.uk) or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-sustainability-strategy.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Limited reduction. Greater bin provision within public open spaces will have some limited reduction on the frequency of waste collections, once optimum routing is established.

How are you going to measure/check the impact of your proposal?

The initial installation of recycling bins is part of a trial to establish whether it is possible to collect materials that do not become contaminated and can be recycled. Collections from recycling bins are being monitored for volume, frequency and acceptability. If the trial is successful, a greater number of recycling bins may be introduced across open spaces citywide, subject to funding.

## B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

**B2-Energy use** - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Separate collection of plastic bottles and metal cans means these materials can be recycled and reduce the volume that goes to general waste.

How are you going to measure/check the impact of your proposal?

Collections from recycling bins are being monitored for volume, frequency and acceptability.

## B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

**B3 - Climate change mitigation and flooding**-Will it proactively mitigate against a changing climate and flooding?

In thinking about this question:

- How will it minimise flood risk from both coastal and surface flooding in the future?
- How will it protect properties and buildings from flooding?
- How will it make local people aware of the risk from flooding?
- How will it mitigate for future changes in temperature and extreme weather events?

How are you going to measure/check the impact of your proposal?

## B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

**B4-Natural environment**-Will it ensure public spaces are greener, more sustainable and well-maintained?

In thinking about this question:

- How will it encourage biodiversity and protect habitats?
- How will it preserve natural sites?
- How will it conserve and enhance natural species?

If you want more information contact [Daniel.Young@portsmouthcc.gov.uk](mailto:Daniel.Young@portsmouthcc.gov.uk) or go to:

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Recycling bin provision not only increases city recycling rates, but increases opportunity for responsible waste disposal so that public open spaces are less prone to littering and overflowing bins, that not only look unsightly, but also have negative impact on biodiversity.

How are you going to measure/check the impact of your proposal?

Collections from recycling bins are being monitored for volume, frequency and acceptability.  
Site cleanliness is subject to daily review and varies widely depending on weather and season.

**B - Environment and climate change**

Yes

No

Is your policy/proposal relevant to the following questions?

**B5-Air quality** - Will it improve air quality?

In thinking about this question:

- How will it reduce motor vehicle traffic congestion?
- How will it reduce emissions of key pollutants?
- How will it discourage the idling of motor vehicles?
- How will it reduce reliance on private car use?

How are you going to measure/check the impact of your proposal?

**B - Environment and climate change**

Yes

No

Is your policy/proposal relevant to the following questions?

**B6-Transport** - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

## B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

**B7-Waste management** - Will it increase recycling and reduce the production of waste?

In thinking about this question:

- How will it reduce household waste and consumption?
- How will it increase recycling?
- How will it reduce industrial and construction waste?

Introduction of recycling provision in open spaces supports the city council's objective to increase recycling and reduce general waste. Separate messaging encourages residents and visitors to take their waste home, where the cost of collection and processing is reduced.

How are you going to measure/check the impact of your proposal?

Collections from recycling bins are being monitored for volume, frequency and acceptability.

C - Regeneration of our city

Yes

No

Is your policy/proposal relevant to the following questions?

C1-Culture and heritage - Will it promote, protect and enhance our culture and heritage?

In thinking about this question:

- How will it protect areas of cultural value?
- How will it protect listed buildings?
- How will it encourage events and attractions?
- How will it make Portsmouth a city people want to live in?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The enhanced bin provision will help keep Southsea Common (Listed status) clean and tidy, which is key to resident satisfaction and encouraging visitors. The recycling amenities will also support the many seafront events that are required to have their own waste management and recycling provision.

How are you going to measure/check the impact of your proposal?  
Collections from recycling bins are being monitored for volume, frequency and acceptability.  
Site cleanliness is subject to daily review and varies widely depending on events, weather and season.

C - Regeneration of our city

Yes

No

Is your policy/proposal relevant to the following questions?

C2-Employment and opportunities - Will it promote the development of a skilled workforce?

In thinking about this question:

- How will it improve qualifications and skills for local people?
- How will it reduce unemployment?
- How will it create high quality jobs?
- How will it improve earnings?
