

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Regeneration

Service, function:

Transport

Title of policy, service, function, project or strategy (new or old) :

Taxi Licensing Committee Report (Proposed Changes to Licensing Policy)

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

The aim of the policy is to improve Air Quality within PCC by introducing a maximum age limit for Taxi's and Private Hire Vehicles licensed with PCC, and to secure £0.5 million for EV charging points by placing a requirement for all newly licensed vehicles to be ZEC by 2025.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

The Taxi and Private Hire trade were consulted during the Clean Air Zone consultation and subsequently engaged directly. We identified a preference for grants as opposed to loans for the upgrade of non-compliant to compliant vehicles. We also took on board feedback that the trade was struggling in the wake of repeated lock downs and so our proposals for the adoption of ZEC are sufficiently far forward as to allow the trade time to recover and be in a more financial suitable position.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A2-Housing - Will it provide good quality homes?

In thinking about this question:

- How will it increase good quality affordable housing, including social housing?
- How will it reduce the number of poor quality homes and accommodation?
- How will it produce well-insulated and sustainable buildings?
- How will it provide a mix of housing for different groups and needs?

Is your policy/proposal relevant to the following questions?

A3-Health - Will this help promote healthy, safe and independent living?

In thinking about this question:

- How will it improve physical and mental health?
- How will it improve quality of life?
- How will it encourage healthy lifestyle choices?
- How will it create healthy places? (Including workplaces)

If you want more information contact Dominique.Letouze@portsmouthcc.gov.uk or go to:

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The proposed policy changes will encourage owner drivers to upgrade their vehicles to become CAZ compliant, if not Zero Emissions Capable. This will lead to an improvement in Air Quality throughout the city, which will have positive impacts on the health of residents in all age categories.

How are you going to measure/check the impact of your proposal?

Roadside emissions are monitored by PCC. It is expected that these will decrease as a result of the Policy.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

<https://www.portsmouth.gov.uk/ext/health-and-care/health/joint-strategic-needs-assessment>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The policy will ensure that around 150 vehicles are upgraded to be compliant with updated PCC licensing restrictions (due to the 8 year age limit). Some taxi and PHV drivers come from some of the most deprived wards in the city. Lockdowns due to the coronavirus pandemic have also had a disproportionate impact on this group due to a reduction in business. PCC are proposing to provide Clean Air Fund grants to support drivers / owners in upgrading their vehicles to reduce the financial impacts.

How are you going to measure/check the impact of your proposal?

Rates of uptake of Clean Air Fund grants will help PCC to monitor the rate at which vehicles are upgraded.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A5-Equality & diversity - Will it have any positive/negative impacts on the protected characteristics?

In thinking about this question:

- How will it impact on the protected characteristics-Positive or negative impact (Protected characteristics under the Equality Act 2010, Age, disability, race/ethnicity, Sexual orientation, gender reassignment, sex, religion or belief, pregnancy and maternity, marriage and civil partnership,socio-economic)
- What mitigation has been put in place to lessen any impacts or barriers removed?
- How will it help promote equality for a specific protected characteristic?

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-equality-strategy-2019-22-final.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The policy will lead to a number of older taxi's being upgraded to newer, less polluting models. Grant funding is provided to support this, in particular offering a higher grant for owners of Wheelchair Accessible Vehicles, reflecting the fact that this group face the highest vehicle upgrade costs. This ensures that WAVs are able to continue to operate and provide a key service to vulnerable groups within the city. Otherwise many of these drivers would not be able to operate within Portsmouth's Clean Air Zone without a charge of £10 for every day of entry.

How are you going to measure/check the impact of your proposal?

Rates of uptake of Clean Air Fund grants will help PCC to monitor the rate at which Wheelchair Accessible Vehicles are upgraded.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

If you want more information contact Tristan.thorn@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/cmu-sustainability-strategy.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The Policy will lead to vehicles upgrading to new models which produce less carbon emissions. The proposals to aim towards a Zero Emission Capable fleet will lead to a much cleaner taxi and private hire vehicle operating within Portsmouth, alongside the installation of infrastructure to support this.

How are you going to measure/check the impact of your proposal?

The taxi licensing department keeps a register of currently licensed vehicles; over time changes in fleet age and fuel can be tracked and monitored.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B2-Energy use - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

If you want more information contact Triston.thorn@portsmouthcc.gov.uk or go to:

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The proposals would lead to an uptake of electric vehicles within the fleet. This will reduce the use of internal combustion engine and traditional fuels in favour of electricity from the grid.

How are you going to measure/check the impact of your proposal?

The taxi licensing department keeps a register of currently licensed vehicles; over time changes in fleet age and fuel can be tracked and monitored.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B3 - Climate change mitigation and flooding-Will it proactively mitigate against a changing climate and flooding?

In thinking about this question:

- How will it minimise flood risk from both coastal and surface flooding in the future?
- How will it protect properties and buildings from flooding?
- How will it make local people aware of the risk from flooding?
- How will it mitigate for future changes in temperature and extreme weather events?

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B4-Natural environment-Will it ensure public spaces are greener, more sustainable and well-maintained?

In thinking about this question:

- How will it encourage biodiversity and protect habitats?
- How will it preserve natural sites?
- How will it conserve and enhance natural species?

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B5-Air quality - Will it improve air quality?

In thinking about this question:

- How will it reduce motor vehicle traffic congestion?
- How will it reduce emissions of key pollutants?
- How will it discourage the idling of motor vehicles?
- How will it reduce reliance on private car use?

If you want more information contact Hayley.Trower@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/env-aq-air-quality-plan-outline-business-case.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The proposals will lead to an immediate decrease in the number of Clean Air Zone non-compliant vehicles driving around Portsmouth, and a longer term decrease in the number of traditional fueled vehicles, replacing them with ZEC vehicles with very low exhaust emissions. This will not only improve air quality in the CAZ but more widely across the city.

How are you going to measure/check the impact of your proposal?
Portsmouth monitor Air Quality at various points around the city, which will give an indication of changes to roadside emissions.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B6-Transport - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

C - Regeneration of our city

Yes

No

Is your policy/proposal relevant to the following questions?

C1-Culture and heritage - Will it promote, protect and enhance our culture and heritage?

In thinking about this question:

- How will it protect areas of cultural value?
- How will it protect listed buildings?
- How will it encourage events and attractions?
- How will it make Portsmouth a city people want to live in?

C - Regeneration of our city

Yes

No

Is your policy/proposal relevant to the following questions?

C2-Employment and opportunities - Will it promote the development of a skilled workforce?

In thinking about this question:

- How will it improve qualifications and skills for local people?
- How will it reduce unemployment?
- How will it create high quality jobs?
- How will it improve earnings?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The longer term adoption of Zero Emissions Capable vehicles, whilst expensive for the taxi and private hire trade in the short term, will leave them in possession of vehicles with much lower running costs.

How are you going to measure/check the impact of your proposal?
Engagement with taxi and private hire drivers to understand the health of trade.

Is your policy/proposal relevant to the following questions?

C3 - Economy - Will it encourage businesses to invest in the city, support sustainable growth and regeneration?

In thinking about this question:

- How will it encourage the development of key industries?
- How will it improve the local economy?
- How will it create valuable employment opportunities for local people?
- How will it promote employment and growth in the city?
