

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

HNB

Service, function:

Homelessness and Rough Sleeping

Title of policy, service, function, project or strategy (new or old) :

Supporting rough sleepers and the hidden homeless: options for the way forward from the emergency accommodation used as part of COVID-19

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To provide temporary accommodation to people who have been sleeping rough on the streets whilst they gain support needed to change their lives and move into more permanent accommodation.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Consultation has been undertaken twice with those local residents who live in the vicinity of the proposed new properties. There has also been feedback obtained from local ward councilors and the multi-agency Portsmouth City Rough Sleeping and Homelessness Partnership Group as well as informal feedback from service users of the interim service. The outcomes were that there is very little feedback from members of the public (less than 20 out of over 2000 residents contacted) about the services, but where there is it is equally split between positive support and negative desire not to have the the service in the area. Consultation has helped to ensure that on site support workers handle issues that arise as quickly as possible and does inform the overall pathway

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

If you want more information contact Lisa.Wills@portsmouthcc.gov.uk or go to:

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Previous to Covid 19, those who were rough sleeping or homeless without a priority need for accommodation were supported through the Day and night service, which offered 57 beds. If a bed was not available rough sleepers were on the streets or "hidden homeless" such as sofa surfing.

During the initial emergency period of COVID-19 a bedroom with a self-contained bathroom has been available for anyone who wants one and has enabled rough sleepers to exit the streets in to a safer form of accommodation.

The proposed long-term pathway model is that rough sleepers will be assessed and provided with accommodation with an appropriate level of support whilst they get their lives into a stable place that enables them to move to less support accommodation and eventually be in self contained accommodation without support.

This pathway model will reduce crime by offering service users not just a bed for the night, but their own accommodation which they manage and can be in 24/7. The aim is to reduce rough sleeping on the streets, which will reduce the fear of crime, both amongst all residents and specifically the rough sleeping community who will have somewhere more secure to stay.

Public Health are heavily involved in the plan to help prevent substance misuse issues and support any physical and emotional wellbeing health needs.

Children's Social Care are included to ensure that Unaccompanied underage asylum seekers are supported fully

The system has had the involvement of the Police since the beginning and this is helping them in supporting victims of crime and dealing with those in this cohort who have been offending.

How will you measure/check the impact of your proposal?

Crime statistics

Activity of the Community Wardens when dealing with Rough Sleeper issues

Police feedback

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This plan is focused on rough sleepers and former rough sleepers that the city council is accommodating in the pathway. The vast majority are in poverty, single adults who need support to rebuild their lives. The plan will put in place support to obtain the appropriate benefits to enable a tenancy to be sustained. Users of the service will be signposted to places where they can be supported to access training and opportunities for employment.
 All individuals who choose to use the service will be offered support from a range of providers including the voluntary sector which will be appropriate to their needs, this will contribute to the establishment of relationships which will mitigate any negative impact.

How are you going to measure/check the impact of your proposal?
 Number of people supported into sustainable accommodation
 Number of people supported into education, employment or training
