

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Regeneration

Service, function:

Transport Planning

Title of policy, service, function, project or strategy (new or old) :

Review of tendered bus services

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To extend the existing contract for supported services from 31 March 2021 to 31 December 2021. As the Local Transport Authority, The Council's legal duties in relation to the provision of public passenger transport services is contained in the Transport Act 1985. Under section 63 of the Act, councils must secure the provision of such public passenger transport services as the Council considers appropriate

to meet any public transport requirements which would not otherwise be met, ensuring bus services are provided where they are socially necessary and would not otherwise be provided commercially.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

No Consultation has been undertaken as we are not changing the services just extending their contract to allow them to operate for a longer time under the existing contracts as re-tendering during this time is likely to see an increased cost with the current Covid-19 outbreak.

A key focus of the City Council's supported services is to enable social independence, by providing bus routes where there is no commercial provision. Encouraging residents to travel through more sustainable options, which in turn will have a positive impact on the health of Portsmouth residents. Reducing dependency on alternative modes of transport such as private cars. Supporting residents to use public transport will also improve air quality through reduced trips.

How are you going to measure/check the impact of your proposal?

Ongoing public transport operator engagement to monitor usage, engaging with residents to ensure areas of city that need to be serviced are connected through public transport services.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Extending the contracts will allow for the supported bus services to continue to operate on a frequent service. Extending the contact will have a positive impact on all those protected characteristics who hold a concessionary bus pass including age and disability or who travel on a supported service.

How are you going to measure/check the impact of your proposal?

Ongoing public transport operator engagement to monitor usage, engaging with residents to ensure areas of city that need to be serviced are connected through public transport services.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Supporting travel by public transport, and in particular by bus with Euro 6 emission levels, is less polluting than traveling in individual, privately owned cars. The supported services enable bus services where they would not otherwise be provided commercially. This enables residents a greater choice on their travel reducing the need for private vehicle hire/ownership and encouraging modal shift in Portsmouth, which will in turn improve air quality through a reduction in vehicle emissions.

How are you going to measure/check the impact of your proposal?

The Council monitor air quality across the city through a series of testing sites. These will continue to be monitored through the Air Quality Team.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B6-Transport - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

Congestion is a barrier to growth in the region, reducing this through supported bus service. By reducing the number of private vehicles on the road. Implementing bus routes are socially necessary to improving connectivity and enable public transport access for lower income and isolated residents to access the wider employment market, along with day activities for health and wellbeing.

How are you going to measure/check the impact of your proposal?
Ongoing public transport operator engagement to monitor usage, engaging with residents to ensure areas of city that need to be serviced are connected through public transport services.

Q8 - Who was involved in the Integrated impact assessment?
