There are green spaces and places for trees that are going unidentified. The Council has an open invitation for residents to suggest places for trees but they don't seem to have planted many and it's going at a snail's pace.

For many of us it's easy to forget that we can suggest spots for trees or wilding, life gets in the way and there's no quick mechanism to feedback.

My idea would be to have volunteer biodiversity scouts in each ward who can look out for opportunities and feedback to the council. They could have some basic training or info sheets, and do an audit of their patch.
