It confirms Portsmouth Museum's commitment to providing equal access to our collections, spaces and activities for all members of society, regardless of their background. It recognises the important role that culture plays in supporting residents health and wellbeing. It states that we will run projects and activities that help people feel better about themselves and more confident of what they can achieve. When we are planning these activities we will consider: "How could this project enhance the wellbeing of people who take part?" It also confirms that the museum service's activities will be informed by the New Economics Foundation's '5 ways to wellbeing'.

The Policy and Plan consider access in its broadest sense, identifying that barriers to access may be physical, intellectual or social, and outlines how the museum service plans to enable people to overcome these. It acknowledges the 'Social Model of Disability' - that it is the barriers put in place by society that create disability, rather than a person's impairment. It recognises that the museum service has a responsibility not to put people with protected characteristics at a disadvantage by its actions.

We will do this by:
