Title of policy, service, function, project or strategy (new or old) :

Concessionary Fares Scheme Reimbursement to Bus Operators 2022/23

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

Under the terms of the Concessionary Travel Act 2007, and the Mandatory Travel Concession (England) Regulations 2011, Portsmouth City Council administers the English National Concessionary Travel Scheme for residents of the city. The scheme comprises a pass allowing free travel on local buses for journeys starting within Portsmouth for eligible residents on grounds of age or disability. Bus

operators are reimbursed on a 'no better now worse' basis for the loss of revenue forgone according to the number of journeys made, the average adult fare and specific additional costs incurred. This follows the terms of the Act and Department for Transport guidance and managed on behalf of the Council by specialist consultants contracted by the authority.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

There has been consultation with the bus companies as outlined in the DfT guidance for the Concessionary Fares reimbursement.

The provision of a Concessionary Fares allows residents that meet the entitlement criteria to have access to sustainable modes of travel, and provide access to essential services and facilities. enabling 'elderly and disabled people, especially those on low incomes, to continue to use public transport and to use it more often, improving their access to a range of basic necessities such as health care and shops and reducing social isolation. Achieving 'social inclusion benefits for older and disabled people by allowing greater freedom to travel, for free, by local bus.

How are you going to measure/check the impact of your proposal?

The transport team will monitor the number of journeys undertaken within the city along with concessionary passenger data numbers.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The funding of concessionary bus travel is more sustainable and less polluting than the private car. This scheme provides an alternative mode of transport to the private car for all who qualify, allowing eligible residents to travel for free.

How are you going to measure/check the impact of your proposal?

Concessionary passenger numbers on bus services within the city will be monitored along with mileage recorded from both bus operators.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B2-Energy use - Will it reduce energy use?

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B5-Air quality - Will it improve air quality?

In thinking about this question:

- How will it reduce motor vehicle traffic congestion?
- How will it reduce emissions of key pollutants?
- How will it discourage the idling of motor vehicles?
- How will it reduce reliance on private car use?

If you want more information contact Hayley.Trower@portsmouthcc.gov.uk or go to:

<https://www.portsmouth.gov.uk/ext/documents-external/env-aq-air-quality-plan-outline-business-case.pdf>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Supporting travel by public transport, and in particular by bus with vehicles with Euro 6 emission levels, is less polluting than traveling in individual, privately owned cars. By reducing the amount of emissions from transportation in a dense urban areas like Portsmouth, public transportation can help to reduce emissions, to meet air quality standards, and to decrease the health risks of poor air quality for our residents.

How are you going to measure/check the impact of your proposal?

The Council monitor air quality across the city through a series of testing sites. These will continue to be monitored through the Air Quality Team.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B6-Transport - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

<https://www.portsmouth.gov.uk/ext/travel/local-transport-plan-3>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The provision of the Concessionary fare travel allows residents to make journeys by sustainable travel modes. More trips can be made without a car, fewer vehicles are on the road. This reduces the risk of traffic crashes and decreases greenhouse gas emissions and other types of air pollution.

How are you going to measure/check the impact of your proposal?

Passenger numbers on bus services will continue to be monitored to understand demand.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B7-Waste management - Will it increase recycling and reduce the production of waste?

In thinking about this question:

- How will it reduce household waste and consumption?
- How will it increase recycling?
- How will it reduce industrial and construction waste?
