

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

HNBS

Service, function:

Private Sector Housing

Title of policy, service, function, project or strategy (new or old) :

Telecare

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To support those who are most vulnerable to stay safely in their homes by offering technological solutions to monitor and keep people safe.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Yes. A survey was undertaken of current customers and key stakeholder groups to understand how people access the service and their views on the name of the service. This has been used to develop a new name for the service (Safe At Home) and new identification and marketing that will help people to more easily understand what the service does.

A - Communities and safety

By enabling more people to stay in their own home, rather than needing to enter a care home or similar, this service helps to keep communities together and diverse. All council, staff entering the home are trained in safeguarding and therefore able to spot every opportunity to see where a person may need support.

How are you going to measure/check the impact of your proposal?

Increase in number of customers.

The key driver for this service is to help residents to live independently in their own homes for as long as possible by providing them with technology to help prevent or detect a problem, such as a fall. Simply technology, such as keysafes, mean that people can stay at home and have visits from those who have been authorised to be in their home. Bed and door monitors for those who may have epilepsy or dementia also help to ensure that people stay safely within their home, and if they leave unsafely, this is reported to a person who can visit.

How are you going to measure/check the impact of your proposal?

Number of customer call outs. Number of customers who are able to say in their own home longer than would otherwise be the case.
