- Funding available for more complex energy saving upgrades - solar panels, air source heat pumps
- Some of our buildings use solar panels and battery energy storage

HOUSING, NEIGHBOURHOOD AND BUILDING SERVICES

Portsmouth City Council has enjoyed a unique relationship with Havant since the 1940s with more than 5,200 homes built, 4,800 still occupied by tenants, and with more to come. Our relationship with Havant Borough Council guarantees a share of tenancies to local residents, and we manage these properties in the same way we do for our city, with an emphasis on strengthening these communities', and the local economy's, prosperity.
