Milton One-Way Streets

Type of policy, service, function, project or strategy:

- ☐ Existing
- ☒ New / proposed

What is the aim of your policy, service, function, project or strategy?

To create one-way streets along Languard/Maxwell/Reginald and Tredegar Roads between Winter Road and Eastney Road.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

These one-way proposals were initially raised with members through their interactions with residents either on street or at surgeries. The ward councillors for Milton ward had been receiving requests for the Council to consider the use of a one-way system around Landguard Road/Maxwell Road/Reginald Road and Tredegar Road.

In response to these requests, the Cabinet Member for Traffic & Transportation requested that officers undertake a Traffic Regulation Order (TRO) for the proposals.

Portsmouth City Council, Transport Engagement Team door knocked the properties on these roads -Tredegar Road, Maxwell Road, Landguard Road and Reginald Road. a survey,going door to door and received 168 responses of which 55% were in favour of the scheme.

By providing one-way streets in the neighbourhood, residents will be able to drive more freely in either direction as vehicles will not have to stop and allow oncoming vehicles to pass; potentially reducing journey times. Cycling will still be permitted in both directions to ensure that the scheme still complements the Portsmouth Transport Strategy objective of promoting walking, cycling and a people centred transport network

Reducing idling time as cars do not have to wait for oncoming traffic to pass may reduce motor vehicle emissions. There is a risk that converting the roads to one way will increase the total number of vehicles using the roads so this may negate any benefit of the reduction in idling time.

Motorists will benefit from a reduced chance of minor, slow moving, collisions because they will no longer have to give way to oncoming motor vehicles. However, without the risk of encountering oncoming motor traffic, drivers are likely to increase their speed. This could lead to more dangerous high impact collisions with other motor vehicles, pedestrians and cyclists.

Monitoring traffic speeds
