

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:

- Communities and safety
- Regeneration and culture
- Environment and public space
- Equality & - Diversity This can be found in Section A5

Directorate:

Regeneration

Service, function:

Safer Travel - Road Safety

Title of policy, service, function, project or strategy (new or old) :

Langstone Road Traffic Calming 2022-23

Type of policy, service, function, project or strategy:

- ☐ Existing
- ☒ New / proposed
- ☐ Changed

What is the aim of your policy, service, function, project or strategy?

The aim of this project is to improve road safety on Langstone Road through the installation of traffic calming measures as a result of evidence indicating that this is an issue. Speeding data has indicated speeds in excess of 15mph above the limit on the road, along with additional accident data and

resident complaints to further support this measure.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Engagement for this scheme will comprise of notification to residents during the period of applying for the TTRO for the works on site. This is standard for schemes of this nature, with speeding on Langstone Road a clear problem with a variety of data indicating that works at this location are necessary.

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Implementation of traffic calming on Langstone Road is likely to reduce speeding issues thus improving road safety and reducing the number of accidents.

How are you going to measure/check the impact of your proposal?

Routine monitoring of accident data in the city shall continue.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A4-Income deprivation and poverty-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

How are you going to measure/check the impact of your proposal?

There is no anticipated impact.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Traffic calming measures may reduce the attractiveness of personal vehicle use and encourage greener options such as public transport. Additionally, the reduced speeds as a result of traffic calming will have a positive impact on road safety and may encourage cycling in the city.

How are you going to measure/check the impact of your proposal?

routine data analysis undertaken by PCC at periodic frequencies may highlight any mode shift as a result of the traffic calming although any impact on this is likely to be insignificant.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B2-Energy use - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

Speeding in excess of 15 mph above the permitted limit have been recorded on Langstone Road making this the location with the worst speeding issues on roads with available data within Portsmouth. Installing traffic calming in the form of speed cushions will reduce speeds on this road making the network safer for drivers and vulnerable road users.

How are you going to measure/check the impact of your proposal?

Speed Surveys are typically conducted upon receipt of complaints from residents or as a result of accident reports. Both of which will be continually reviewed following implementation.

B - Environment and climate change	Yes	No
