www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity - This can be found in Section A5

Directorate:

Housing, Neighbourhoods, and Buildings

Service, function:

Private Sector Housing

Title of policy, service, function, project or strategy (new or old) :

Additional Licensing of Houses of Multiple Occupation (HMOs)

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To consider the introduction of additional licensing control of HMOs in the City.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

A statutory 10 week consultation was held between 23 May to 2 August 2022. The results showed that the respondents to the consultation were overall in support of introducing an additional licensing scheme in the city. Respondents provided views on a number of aspects of the proposed scheme which have been taken into account. This has led to changes being made to the proposed licensing model, fee structure, and related policies.

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

A2-Housing - Will it provide good quality homes?

In thinking about this question:

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The proposal is to consider introducing additional licensing of HMOs. The data currently available to the council

indicates that HMOs may not be managed very effectively by some HMO landlords or agents and that significant proportion of HMOs in the city may have significant hazards. If it is decided that further controls of HMOs is to be introduced this would result in more HMOs being licensed and inspected, which is likely to improve the living conditions for tenants living in poor quality HMOs in the city.

How are you going to measure/check the impact of your proposal?

If additional licensing controls are proposed as a result of the public consultation, measures will be put into place to record the inspections of HMOs and the outcomes of these inspections.

A - Communities and safety

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The proposal is to consider introduction of additional licensing of HMOs. The data currently available to the Council indicates that HMOs may not be managed very effectively by some HMO landlords, this includes waste issues from HMOs, and potentially some landlords not meeting their legal obligations for managing HMOs such as having annual gas safety checks. If it is determined that further controls of HMOs is required this could result in more HMOs being licensed and inspected, which is likely to improve the living conditions for tenants living in poor quality HMOs in the city, and address some issues experienced by the local community such as waste problems (where HMOs aren't adequately storing waste and putting their waste out for collection on the correct days for example - this can be managed through HMO license conditions).

How are you going to measure/check the impact of your proposal?

If additional licensing controls are proposed as a result of this, measures will be put into place to record the success of such a scheme in address these issues.
