

# Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

[www.portsmouth.gov.uk](http://www.portsmouth.gov.uk)

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
  - Communities and safety
  - Regeneration and culture
  - Environment and public space
  - Equality & - Diversity - This can be found in Section A5

Directorate:

Regeneration

Service, function:

Transport

Title of policy, service, function, project or strategy (new or old) :

Shipwright's Way

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

To improve pedestrian and cycle access to the historic Shipwright's Way, specifically in the Old Portsmouth area.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Consultation was done through TRO. Nothing has changed from the TRO feedback.

## A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

### A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This project will reduce the potential for incidents between motorists and vulnerable road users, such as cyclists and pedestrians, at this site. It will also discourage motorists from speeding in this area by narrowing the carriageway.

How will you measure/check the impact of your proposal?  
Speed check data before and after implementation

## A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

### A2-Housing - Will it provide good quality homes?

In thinking about this question:

- How will it increase good quality affordable housing, including social housing?
- How will it reduce the number of poor quality homes and accommodation?
- How will it produce well-insulated and sustainable buildings?
- How will it provide a mix of housing for different groups and needs?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This scheme will make improvements to a high profile walking and cycling route the runs through Hampshire to the Historic Dockyard. Creating extra space and access for pedestrians in an area of the city popular with tourists and residents alike will help to reduce dependence on the private car, encourage new and less confident cyclists to use the route and demonstrate the priority of active modes over motorized polluting vehicles.

How are you going to measure/check the impact of your proposal?

Traffic and pedestrian enumeration pre/post scheme

**A - Communities and safety**

**Yes**

**No**

Is your policy/proposal relevant to the following questions?

**A4-Income deprivation and poverty**-Will it consider income deprivation and reduce poverty?

In thinking about this question:

- How will it support those vulnerable to falling into poverty; e.g., single working age adults and lone parent households?
- How will it consider low-income communities, households and individuals?
- How will it support those unable to work?
- How will it support those with no educational qualifications?

This initiative will support those with disabilities who currently find it difficult to use the narrow pavements around the Square Tower. It will also support less confident cyclists, those with small children or those who are older or less able, to use the area on foot or by bike. The introductions of additional tactiles at the crossing points will help make the area more inclusive for partially sighted residents and tourists.

How are you going to measure/check the impact of your proposal?

Traffic and pedestrian enumeration pre/post scheme

**B - Environment and climate change**

**Yes**

**No**

Is your policy/proposal relevant to the following questions?

**B1-Carbon emissions** - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This initiative will support sustainable travel around and through Old Portsmouth, making the area more accessible for non motorised traffic and slowing motorised

How are you going to measure/check the impact of your proposal?  
We will collect usage data and periodically survey users to determine impacts

**B - Environment and climate change**

**Yes**

**No**

Is your policy/proposal relevant to the following questions?

**B2-Energy use** - Will it reduce energy use?

In thinking about this question:

- How will it reduce water consumption?
- How will it reduce electricity consumption?
- How will it reduce gas consumption?
- How will it reduce the production of waste?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This initiative will support those who currently feel excluded from cycling and walking in the area in question. The measures proposed will reduce speeds for motorised vehicle and create additional space for active modes. These changes will enable those residents living in, and visiting the area to consider making more sustainable, non polluting travel choices, reducing congestion and creating the associated impacts on air quality.

How are you going to measure/check the impact of your proposal?  
Enumeration pre-post installation, casualty + speed data comparison.

**B - Environment and climate change****Yes****No**

Is your policy/proposal relevant to the following questions?

**B6-Transport** - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

This initiative will support those who currently feel excluded from cycling and walking in the area in question. The measures proposed will reduce speeds for motorised vehicle and create additional space for active modes by a) re-purposing current road space for walking b) creating tighter angles for turning vehicles and c) reducing the carriageway width at a key location. These changes will enable those residents living in, and visiting the area to consider making more sustainable, non polluting travel choices, reducing congestion and creating the associated impacts on air quality.

How are you going to measure/check the impact of your proposal?  
We will collect usage data and periodically survey users to determine impacts

**B - Environment and climate change**

Yes

No

Is your policy/proposal relevant to the following questions?

**B7-Waste management** - Will it increase recycling and reduce the production of waste?

In thinking about this question:

- How will it reduce household waste and consumption?
- How will it increase recycling?
- How will it reduce industrial and construction waste?

The project will utilise existing materials in keeping with the conservation area, and avoid making significant change the street scene in front of the Square Tower. The build out will allow for a wider more open walking space around the Square Tower making the area a more attractive location to pedestrians.

How are you going to measure/check the impact of your proposal?  
We will work with PCC conservation officer.

**C - Regeneration of our city**

Yes

No

Is your policy/proposal relevant to the following questions?

**C2-Employment and opportunities** - Will it promote the development of a skilled workforce?

In thinking about this question:

- How will it improve qualifications and skills for local people?
- How will it reduce unemployment?
- How will it create high quality jobs?
