Recycling Infrastructure Update

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

The report sets out the business case for Portsmouth City Councils capital investment of a 11.52% share in a new materials recovery facility (MRF) at Chickenhall Lane in Eastleigh and associated works at the Waste Transfer Station (WTS) network across Portsmouth, Southampton and Hampshire. This will enable the delivery of a new system (twin stream) for collecting dry recyclable waste across

Portsmouth, Southampton and Hampshire that complies with the requirements for consistency in kerbside recycling services set out in the Environment Act 2021.
The report also sets out the benefits to residents with the introduction of twin stream recycling to enable improved recycling at the kerbside.

The construction of a new MRF will result in Portsmouth residents being able to recycle many more items at the kerbside including plastic films; plastic pots, tubs and trays; and glass bottles and jars. This will result in these items being kept in circulation (not final energy recovery (ERF)) resulting in a reduction in overall carbon emissions.

How are you going to measure/check the impact of your proposal?

We will work with the PCC Principal Strategy Advisor using collected tonnage data to review how diversion of material from ERF to recycling reduces emissions.
