Type of policy, service, function, project or strategy:

What is the aim of your policy, service, function, project or strategy?

To measure the impact of a private rental sector mediation service in Portsmouth

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Yes. In 2020 a consultation exercise took place to inform the approved Private Rental Sector (PRS) Strategy for Portsmouth 2021-2026. Part 1 includes an action to create a mediation service between landlords/agents & tenants in the city. Wording as follows: Action 2: Create a mediation service between landlords and tenants to help improve security of tenure. This may include a 'private sector housing court'. The consultation demonstrated that 76% of private renters compared to 65% of landlords who took part gave a 72% rating of high or very high priority in support of this action.

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The pilot mediation scheme was extended until March 2023 to assess the impact and the difference the scheme can make to landlords and tenants in dispute. Some of these disputes can be about the condition of rental properties. Earlier and less costly dispute resolution could mean improvements in rental property condition. The aim of the service is to reduce evictions prevent rough sleeping and homelessness. Unfortunately on review this does not appear to have been achieved, it is therefore recommended to end the pilot scheme. This is not anticipated to impact negatively as data indicates that the pilot has made a significant difference.

How are you going to measure/check the impact of your proposal?

PCC officers have gathered data from the pilot and carried out an analysis of the impact of the scheme.

Measures include:

The number of evictions prevented

The number of tenants that accepted or declined the service

The number of evictions that occurred even after this intervention (and whether eviction was ever considered by the landlord, or if it was never a likely outcome)

How many cases of disrepair were resolved between landlord & tenant without escalation to PCC

The growth in referrals over the period of the pilot

Participation by landlords

Financial analysis per case

The appetite for the service in light of eviction cases emerging post pandemic

The breakdown of cases to assess impact

Unfortunately on review the scheme does not appear to have been successful in its aims of preventing eviction, it is therefore recommended to end the pilot scheme. This is not anticipated to impact negatively as data indicates that the pilot has made a significant difference. The Council will continue to develop its prevention hub and will measure the success of this alternative scheme.

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The extension to the mediation pilot scheme until March 2023 was proposed to assess the impact and the difference the scheme could make to landlords and tenants in dispute. Some of these disputes can be about the condition of rental properties and this as well as the potential stress caused by legal proceedings can have an impact on people's mental and physical health. It was envisaged that earlier dispute resolution could mean improvements in people's quality of life. On review of the measures of the pilot this unfortunately does not appear to have been achieved .

How are you going to measure/check the impact of your proposal?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

It was anticipated that a successful mediation pilot would improve the financial position for some landlords and tenants in the city. Part of what the mediators do is to signpost tenants to support provision in Portsmouth such as the CAB or Portsmouth Hive to ensure they are in maximum receipt of help to pay their rent. Signposting can be provided through the Council's other services.

How are you going to measure/check the impact of your proposal?

One of the key measures will be how many cases dealt with as part of the mediation pilot prevented evictions and enable people to stay in their homes. Unfortunately on review the scheme does not appear to have been successful in its aims of preventing eviction, it is therefore recommended to end the pilot scheme. This is not
