Title of policy, service, function	Modern Slavery and Human Trafficking Statement
Type of policy, service, function	Existing
What is the aim of your policy, service, function, project or strategy?	The Modern Slavery Act 2015 (MSA 2015) applies to England and Wales and includes the offences of human trafficking and slavery, servitude and forced or compulsory labour. The Act establishes a legal duty under Section 52 for specified public authorities to notify the Home Office where there is reasonable grounds to be believe a person may be a victim of modern slavery. Section 54 of the MSA 2015 requires commercial organisations carrying out business in the UK, with a turnover of at least £36 million, to prepare and publish a slavery and human trafficking statement for each and every financial year. The City Council is therefore required to produce and annual statement and improvement plan.
Has any consultation been undertaken for this proposal?	no

Equality & diversity - will it have any positive/negative impacts on the protected characteristics?

<p>With the above in mind and following data analysis, who is the policy, service, function, project or strategy going to benefit or have a detrimental effect on and how?</p>	<p>The aim of this statement is to demonstrate the council's commitment to identifying, and eliminating modern slavery, human trafficking and forced labour in all its operations and supply chains and to set out a programme of improvement.</p> <p>The Council also has a duty under Section 52 of the Modern Slavery Act to identify and support victims of modern slavery. It is hoped that identifying and supporting victims of modern slavery and providing appropriate support will improve their mental and physical health, and quality of life.</p>
<p>Will any of those groups be affected in a different way to others because of your policy, project, service, function, or strategy?</p>	<p>Men, women and children are all vulnerable in different ways to different kinds of modern slavery. The highest number of referrals to the National Referral mechanism are come from the UK, followed by Albanians.</p> <p>We anticipate a positive impact in the long term. Often victims of modern slavery and trafficking are from minority ethnic backgrounds - although a high proportion - as far as we know - are from the UK. The Modern Slavery and Exploitation helpline's Annual Assessment for 2021 identifies the top 10 nationalities of potential victims - in order from 1-10 - Romania, Vietnam, China, Albania, Sudan, India, Poland, England, Brazil, Pakistan</p>
<p>If you are directly or indirectly discriminating, how are you going to mitigate the negative impact?</p>	<p>N/A</p>
<p>Who have you consulted with or are planning to consult with and what was/will be your consultation methodology?</p>	<p>Modern Slavery is a hidden crime and consultation is not appropriate at this stage.</p>
<p>How are you going to review the policy, service, project or strategy, how often and who will be responsible?</p>	<p>The statement is reviewed annually and progress against improvement plan priorities monitored every 6 months</p>

Crime - Will it make our city safer?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?	The improvement plan in the statement will help to raise awareness of the signs and symptoms of modern slavery so that more victims are identified and supported. Most victims of modern slavery and trafficking are likely to be vulnerable for example, young people used to run drugs, immigrant workers, begging gangs, people with complex needs (often mental health and substance misuse) or rough sleepers. Some of these groups are also linked to anti-social behaviour. Providing support to escape exploitative relationships should allow them to get other legitimate work, improving their income and reducing crime.
How are you going to measure/check the impact of your proposal?	Monitor levels of crime and ASB alongside reports of modern slavery.

Housing - will it provide good quality homes?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?	If victims of modern slavery are identified in private sector accommodation it is possible they might need to be rehoused in social housing in the long run so may impact on supply - although the numbers are very small.
How are you going to measure/check the impact of your proposal?	Checking with Housing Service
