

cannot leave my windows open at weekends due to the noise, feel uncomfortable sitting in my garden. I am unable to be a family with younger children as I do not want to expose them to language & noise. The owner has used a form of intimidation & the abatement notices at the rear of the properties, which is the form of access for at least 10 residents, 5 which use the access park in garage & garden drives, stating they require his permission will have to pay a fee to drive over the land, stating he will in gates, sleeping policeman, bollards and only give a key to residents pay. Even though all properties have right of way over the land. The owner has also on occasions blocked the land with vehicles & stopped residents from accessing their properties. When approached and asked why he is doing this, he replies "everyone is being unfriendly to him by complaining, so he will be unfriendly" where the refuse is kept, its purposely left messy, with foxes oftening all around the area.

is the worst I've felt living here since moving in. I do not enjoy living here any more. I'm ready to move out. Things stay the same.

I like to thank horraine and the team for all their hard work they have done for the local community regarding this matter.

yours Faithfully

I would like to stay anonymous in fear of reprisals.
