Subject: It's Mustard @ 116 Albert road

Dear Sir/Madam,

I believe that Lorraine Astill from the noise abatement team has passed on my email to her about an incident regarding the licensee (a woman I know as Jo) of the above premises, who is targeting me.

I have had 3 encounters to date, the first was a couple of months ago on a particularly noisy Saturday night when I spoke directly to the premises owner (a man I know to be called Adam) outside my property. I asked him if he could imagine what it was like to live next door to a beer garden. Jo came out of the premises, stormed over to where I stood at my front door shouting at me that I was putting her licence in jeopardy and who the F*** did I think I was!

The second incident was as I reported to Lorraine by email that I also reported to the police online and in Sunday last Jo and Adam came out at 9:41 pm and she shouted at my property (my front door was open to let my cat out) "Here we are, we've finished now so don't bother complaining" then went back into the beer garden together and started shouting and laughing at the top of their voices.

I am being targeted by her, if not both of them and as much as I would like to attend the hearing, I feel I am unable to as I fear the repercussions and/or reprisals and ask my name to be withheld. Life at my property since December last year (their opening night) has been miserable, the noise from the music has been horrendous every weekend and then the loud voices shouting and swearing in the beer garden is obscene.

My very first encounter with Adam happened on March 27th last year when he verbally abused me for blocking his parking space, a little after that he verbally abused my neighbour at his car, whilst his children were with him, which I witnessed first hand. He, Adam, was extremely aggressive to us both and intimidating, as has Jo had been on all 3 occasions with me.

Please, please, please help.

Kindest regards
