Title of policy, service, function, project or strategy (new or old) :

2023 Review of Polling Districts and Polling Places

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

This IIA is being completed as part of a Review of Polling Districts and Polling Places. The review seeks to ensure that the configuration of polling districts and the provision of polling places remains both suitable and convenient for all voters.

A polling district is a sub-division of a ward into a smaller geographical unit comprising a number of streets/properties.

A polling place is a building or area in which polling stations are located.

A polling station is the individual room or building in which the poll is held.

The duties of the council in the review process are two-fold:

- a) To ensure that all electors in the constituency have such reasonable facilities for voting as are practicable in the circumstances
- b) To ensure that so far as is reasonable and practicable, polling places are accessible to all electors, including those who are disabled, and when considering the designation of a polling place, must have regard to the accessibility needs of disabled persons

When designating polling places there are practical limitations such as the availability and suitability of venues that must also be considered.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

A six-week consultation period was undertaken as part of the review process. The responses received have been considered and included in the recommendations as appropriate.
