

Integrated Impact Assessment (IIA)

Integrated impact assessment (IIA) form December 2019

www.portsmouth.gov.uk

The integrated impact assessment is a quick and easy screening process. It should:

- identify those policies, projects, services, functions or strategies that could impact positively or negatively on the following areas:
 - Communities and safety
 - Regeneration and culture
 - Environment and public space
 - Equality & - Diversity This can be found in Section A5

Directorate:

Regeneration

Service, function:

Transport Planning

Title of policy, service, function, project or strategy (new or old) :

Trial of a two-car taxi rank in the existing bus lane north of Laburnum Grove in London Road, North End operating between 9am and 7am under an experimental traffic regulation order.

Type of policy, service, function, project or strategy:

- Existing
- New / proposed
- Changed

What is the aim of your policy, service, function, project or strategy?

This scheme has trialled the provision of a 22-hour two-car taxi rank in London Road, North End under an experimental traffic regulation order since 5 August 2022. The rank is located at the southern end of the southbound bus lane on London Road, close to the junction with Laburnum Grove. Operating times were between 9am and 7am to allow buses to continue using the bus lane without taxis stopping during the busy 7am - 9am commuter period.

Has any consultation been undertaken for this proposal? What were the outcomes of the consultations? Has anything changed because of the consultation? Did this inform your proposal?

Engagement took place with the taxi trade, bus operators, public transport officers, parking enforcement officers, licensing officers and elected members, and their opinions helped shape the trial. The feedback received resulted in the reduction of the operating hours of the trial taxi rank from 24 to 22 hours and to limit the rank to two vehicles to allow buses to pull out without conflicting with traffic turning into nearby Derby Road. The trial has been subject to consultation through the Experimental Traffic Regulation Order process.

A - Communities and safety

Yes

No

Is your policy/proposal relevant to the following questions?

A1-Crime - Will it make our city safer?

In thinking about this question:

- How will it reduce crime, disorder, ASB and the fear of crime?
- How will it prevent the misuse of drugs, alcohol and other substances?
- How will it protect and support young people at risk of harm?
- How will it discourage re-offending?

Yes

No

Is your policy/proposal relevant to the following questions?

A5-Equality & diversity - Will it have any positive/negative impacts on the protected characteristics?

In thinking about this question:

- How will it impact on the protected characteristics-Positive or negative impact (Protected characteristics under the Equality Act 2010, Age, disability, race/ethnicity, Sexual orientation, gender reassignment, sex, religion or belief, pregnancy and maternity, marriage and civil partnership,socio-economic)
- What mitigation has been put in place to lessen any impacts or barriers removed?
- How will it help promote equality for a specific protected characteristic?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The provision of the taxi rank would increase transport choices in North End and could potentially reduce waiting times for those with disabilities or mobility issues.

How are you going to measure/check the impact of your proposal?

Via stakeholder feedback: in September 2022 the Iceland store representative expressed the belief that, although no behaviour change had been noted at the time, the rank will be useful for their elderly customers, who frequently call private hire taxis to collect them; in September 2023 a member of the taxi trade fed back that they believed the rank benefitted the elderly.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B1-Carbon emissions - Will it reduce carbon emissions?

In thinking about this question:

- How will it reduce greenhouse gas emissions?
- How will it provide renewable sources of energy?
- How will it reduce the need for motorised vehicle travel?
- How will it encourage and support residents to reduce carbon emissions?

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The provision of a taxi rank could reduce the need for a small number of residents' ownership of private vehicles and encourage the use of taxis as an alternative which will often have lower emissions, though this will be difficult to monitor and measure.

Is your policy/proposal relevant to the following questions?

B3 - Climate change mitigation and flooding-Will it proactively mitigate against a changing climate and flooding?

In thinking about this question:

- How will it minimise flood risk from both coastal and surface flooding in the future?
- How will it protect properties and buildings from flooding?
- How will it make local people aware of the risk from flooding?
- How will it mitigate for future changes in temperature and extreme weather events?

Is your policy/proposal relevant to the following questions?

B5-Air quality - Will it improve air quality?

In thinking about this question:

- How will it reduce motor vehicle traffic congestion?
- How will it reduce emissions of key pollutants?
- How will it discourage the idling of motor vehicles?
- How will it reduce reliance on private car use?

B - Environment and climate change**Yes****No**

Is your policy/proposal relevant to the following questions?

B6-Transport - Will it improve road safety and transport for the whole community?

In thinking about this question:

- How will it prioritise pedestrians, cyclists and public transport users over users of private vehicles?
- How will it allocate street space to ensure children and older people can walk and cycle safely in the area?
- How will it increase the proportion of journeys made using sustainable and active transport?
- How will it reduce the risk of traffic collisions, and near misses, with pedestrians and cyclists?

<https://www.portsmouth.gov.uk/ext/travel/local-transport-plan-3>

Please expand on the impact your policy/proposal will have, and how you propose to mitigate any negative impacts?

The introduction of a taxi rank in this location will increase modal choice for residents and visitors to North End. This could encourage the use of active travel for the outbound trip, where a return is taken by taxi after for example a large amount of shopping is purchased.

The taxi rank is not likely to cause detriment to safety and has undergone Road Safety Audits which show no impacts.

B - Environment and climate change**Yes****No**

How are you going to measure/check the impact of your proposal?

The following methods of monitoring are being undertaken on the trial scheme;

- Casualty and near miss data has been reviewed against the baseline for this section of London Road.
- Any bus delays over 5 minutes have been reviewed by CCTV to check they are not attributable to the taxi rank.
- PCN data and site visits by the Parking Enforcement team have checked unauthorised vehicles do not stop there.
- Site observations were undertaken by transport officers from 9am to 6pm on 7 February 2023 and 11 February 2023, to monitor usage of the rank by cyclists, rental e-scooters, buses, and taxis; these observations did not indicate that the taxi rank caused any additional challenges for cyclists or rental e-scooter users.

Via data analysis: monitoring of bus journey times and CCTV, plus feedback from bus operators, has indicated that the presence of the rank has not had a negative impact on bus service times. This means that the rank is unlikely to cause a decrease in the use of bus services and a resultant increase in alternative modes such as private car use.

B - Environment and climate change

Yes

No

Is your policy/proposal relevant to the following questions?

B7-Waste management - Will it increase recycling and reduce the production of waste?

The scheme could provide minor improvement to the North End economy, encouraging individuals to visit and/or do larger shops in the area where they may not previously have had the means or confidence in transport options to do so.

How are you going to measure/check the impact of your proposal?

Feedback from local businesses. Most feedback received from the businesses close to the trial taxi rank has been positive, with Iceland and Minutka both stating they felt their customers benefitted from the presence of the taxi rank.
