Subject: Afters review

Hello this is Tyler from temple records.

Since the opening of the afters club I have held two music events which have both been great nights, because of this we have plans of creating many more events for this venue. I believe afters has a lot of potential towards the dance music scene in Portsmouth as they're are gaining a lot of attention from individuals helping to grow the industry, especially considering there are not many clubs/venues within the local area compared to other cities who aim to push the music scene.

Since I had first experienced the club I've seen a lot of improvement in many ways from the clubs design to staff management so I'm excited to see where they can take this after achieving a lot within the early stages of opening.

Best regards,

Tyler
